

# UoR Updates for the NOC Meeting of LEARN

---

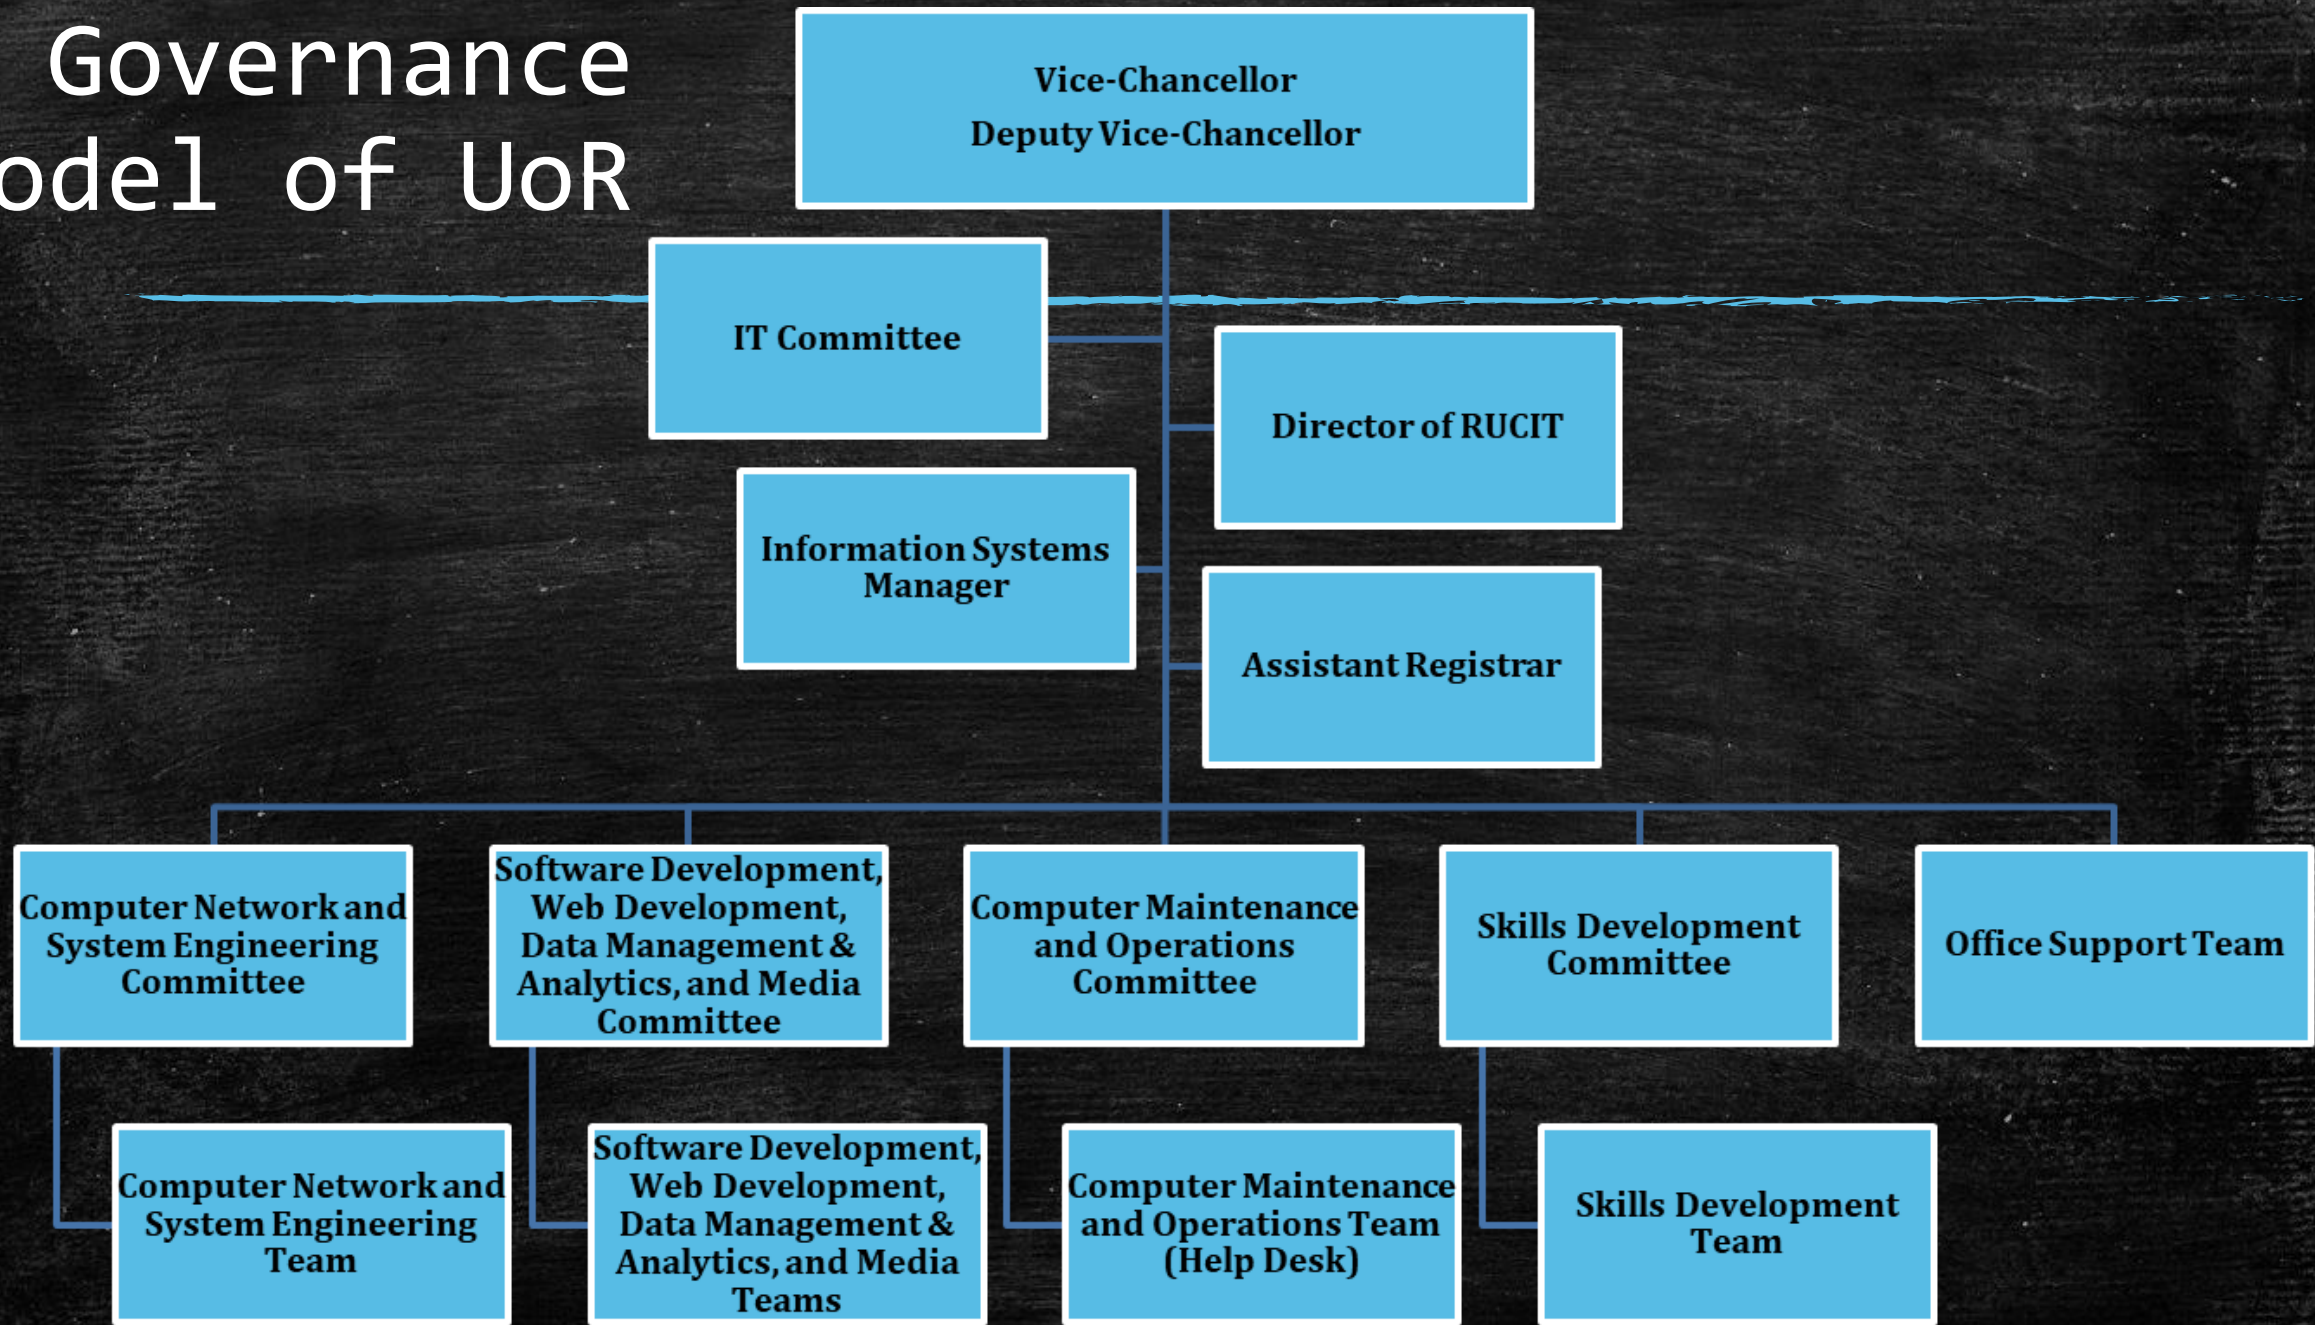

By Harshana

# Outline

---

- IT Governance Model of UoR
- Ruhuna University Center for Information Technology (RUCIT)
- Our Users
- UoR NOCs
- Current Network and Services of UoR
- Future Network and Services of UoR
- LEARN Connectivity Summary
- Capacity Building for IT Staff of UoR
- Way Forward
- Challenges

# IT Governance Model of UoR

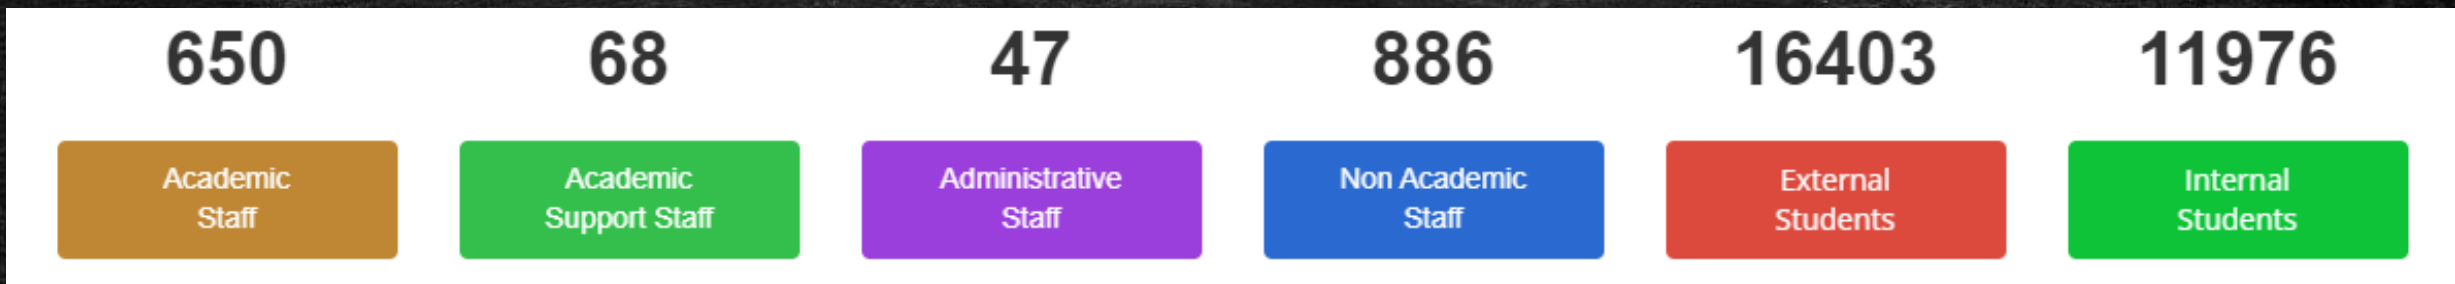

# Ruhuna University Center for Information Technology (RUCIT)

---

- RUCIT was established in 2021 as the central IT entity of the university, tasked with overseeing all IT matters of UoR
- The initiative stemmed from the vision of the current VC of the University and has developed under his guidance
- RUCIT is led by a Director, with several teams, each headed by a leader under the direct supervision of the Director of RUCIT
- RUCIT offers a comprehensive range of services, including providing ICT-related infrastructural facilities for academic and administrative purposes
- As well as establishing and maintaining the university's information systems, including addressing relevant training needs

# Our Users

The highest students intake in Sri Lanka

11,976 Internal Students

16,403 External Students

1,700 Staff

**About 30,000 Users**

**10 Faculties**

**37 Degree Programmes**

- Spread across different prominent locations in Southern Province

# UoR NOCs

---

- 7 Locations

- Connected to LEARN

1. Main Campus (Wellamadama)
2. Faculty of Agriculture (Mapalana)
3. Faculty of Engineering (Hapugala)
4. Faculty of Medicine (Karapitiya)
5. Faculty of Technology (Kamburupitiya)
6. Faculty of Allied Health Sciences (Karapitiya)

- Not Connected to LEARN

7. Faculty of Graduate Studies (Matara)

# UoR NOCs

---

## On-prem services

- MIS
- Library System (KOHA)
- LDAP
- Web Servers
- LMS (Moodle)
- Virtualization platforms (Citrix, hyper-V and VMware ESXi )
- Voice over IP (VoIP)
- Wi-Fi
- Radius

# UoR NOCs

---

## Cloud services

- Gmail (Google workspace)
- Microsoft Office 365
- Zoom
- Eduroam (Eduroam facility is available at Engineering, Technology and Agriculture faculties)

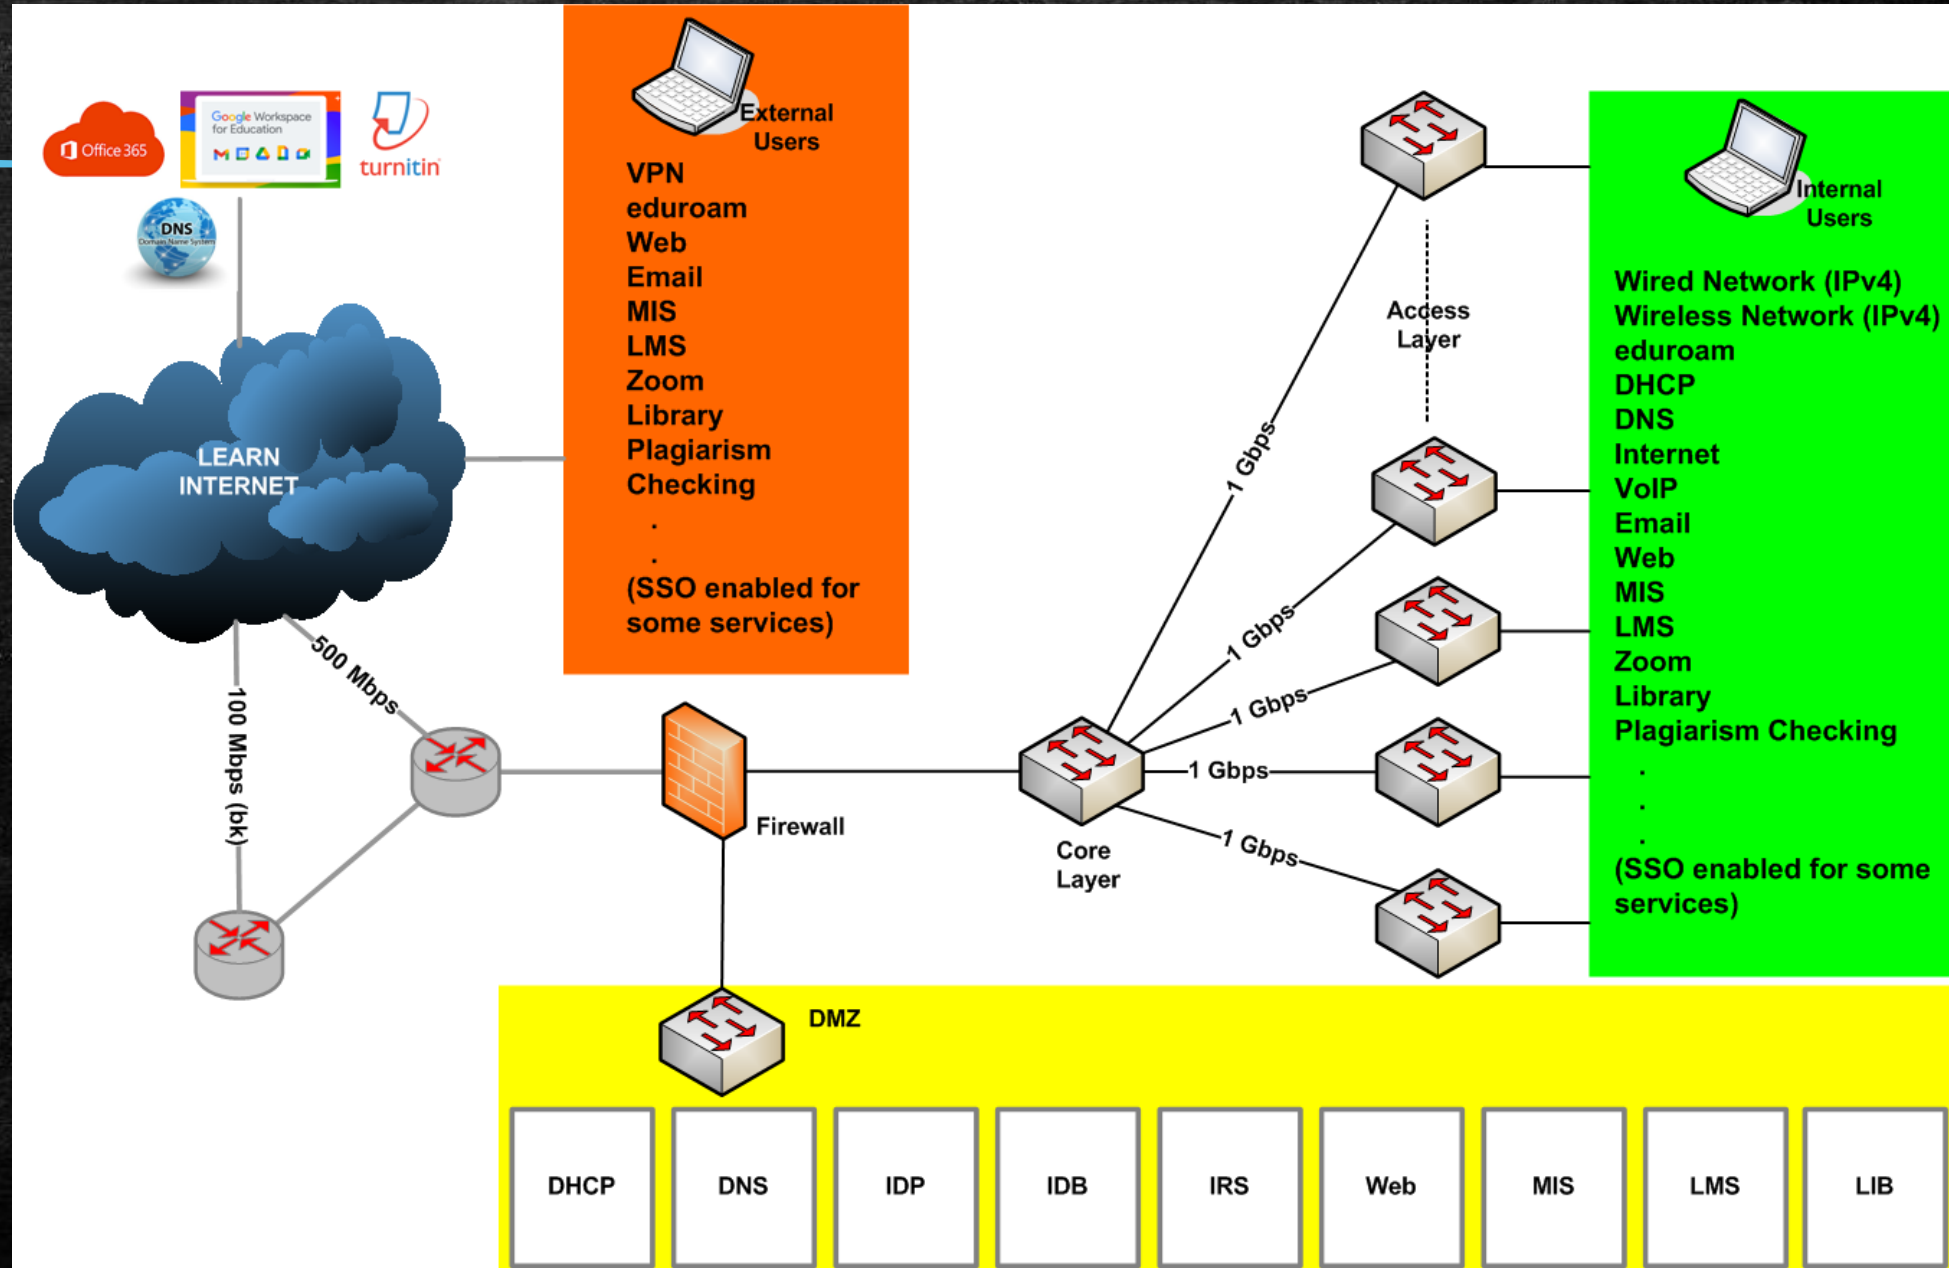

# Main Campus (Wellamadama, Matara)

1

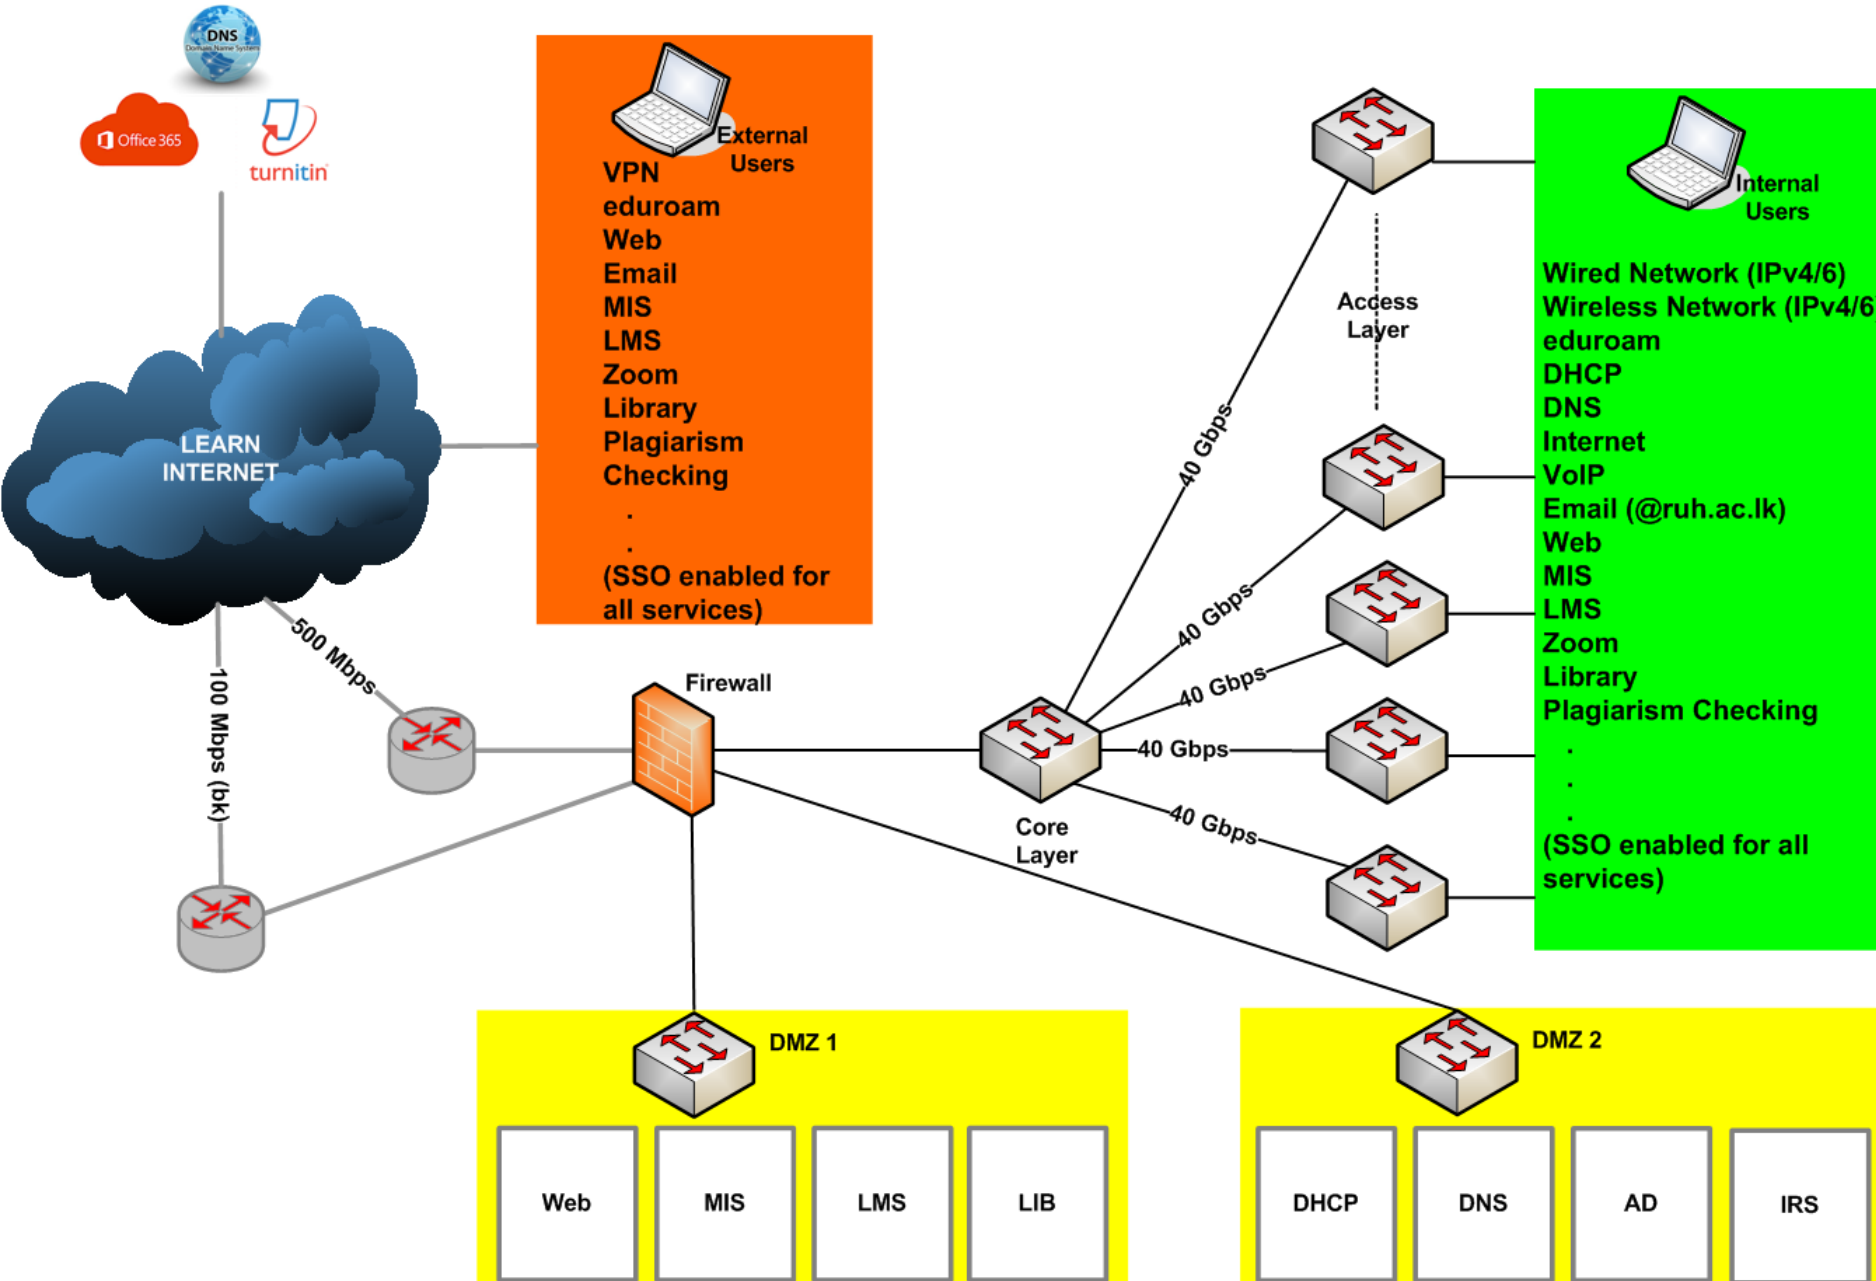

6000 Users

500 Mbps

100 Mbps Backup

# Main Campus (Wellamadama)

**Future Network & Services**

1

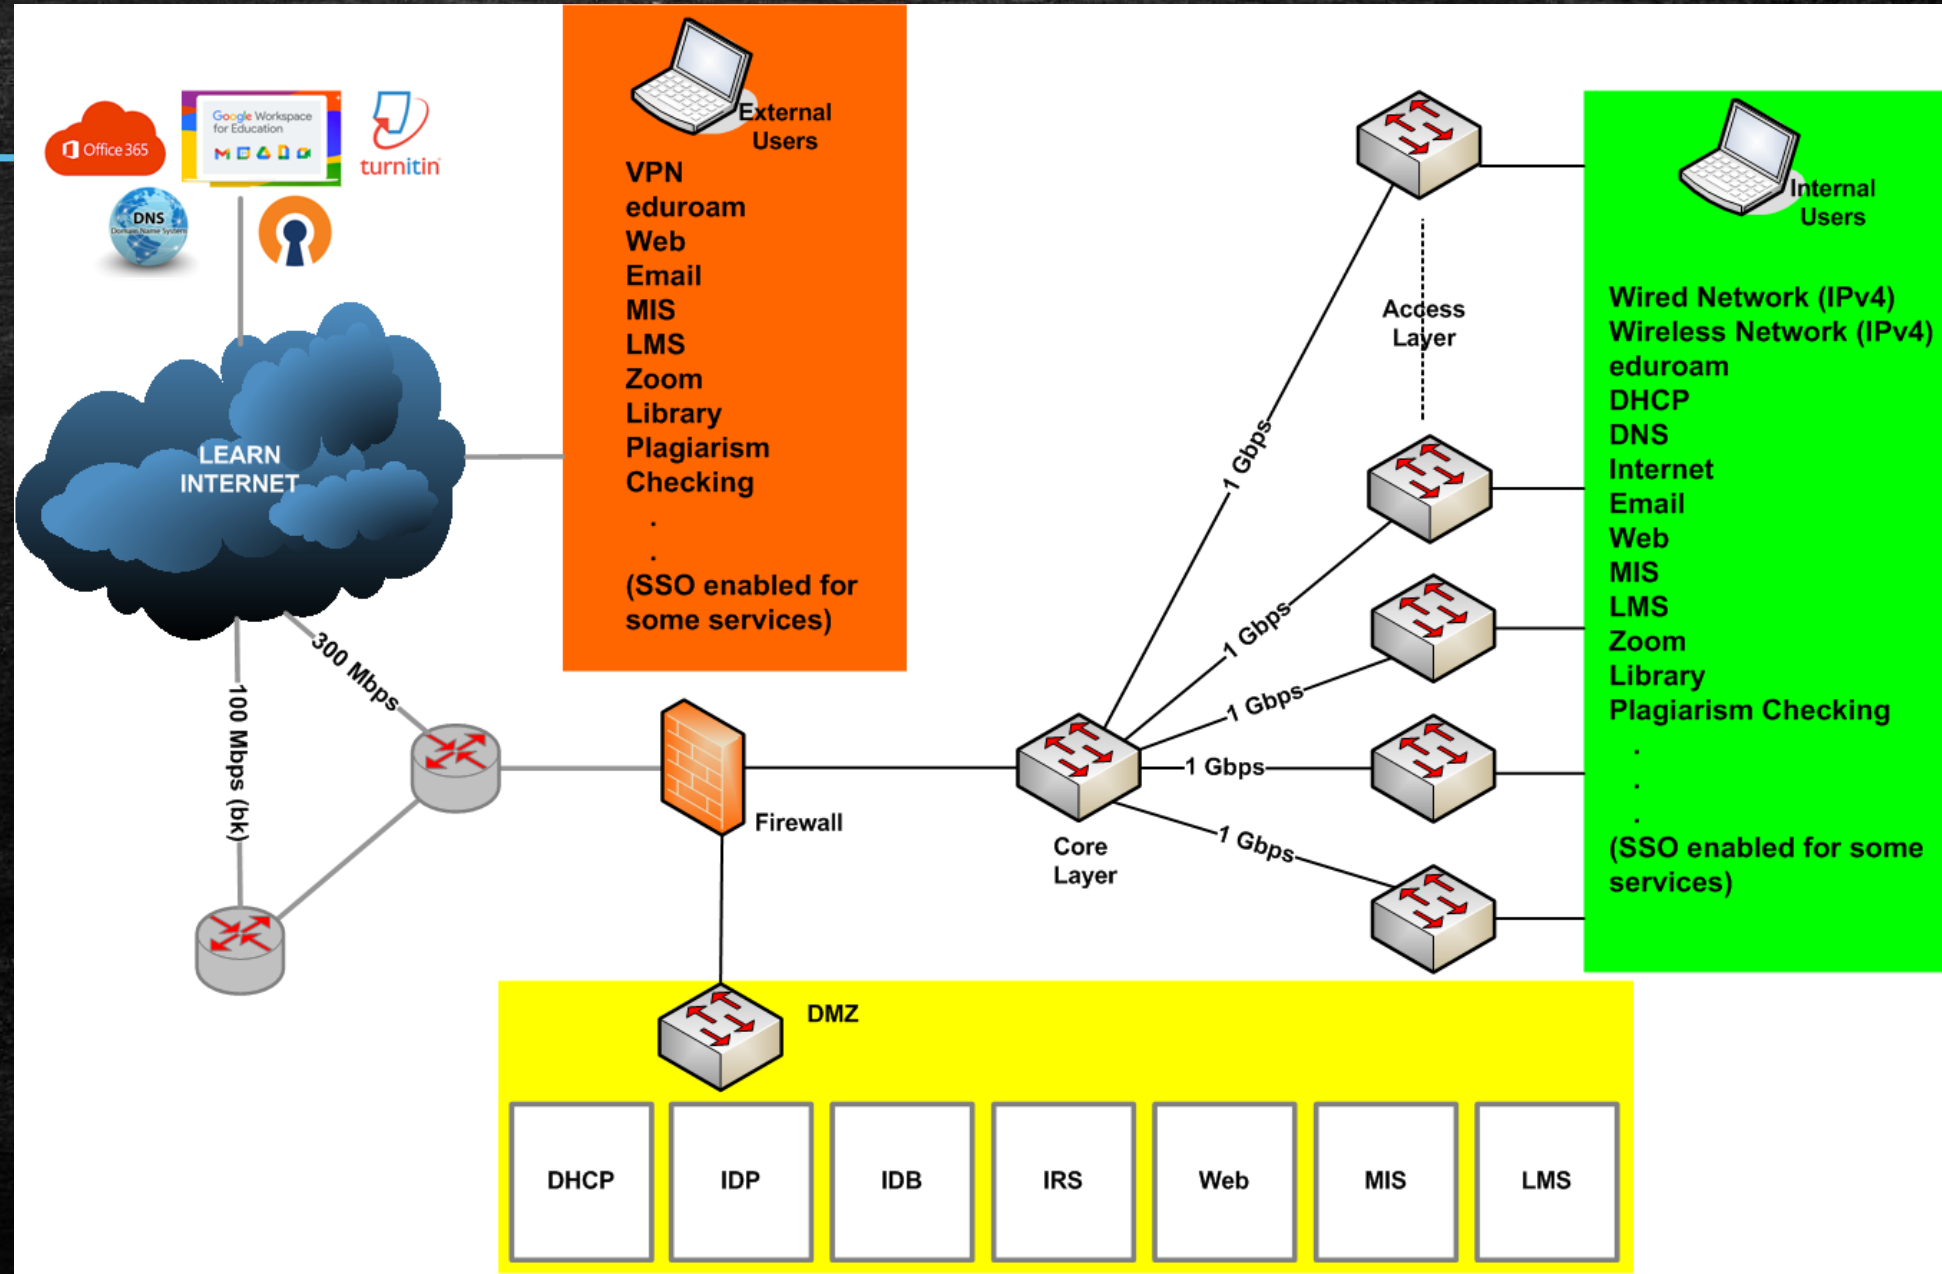

# Faculty of Agriculture (Mapalana, Matara)

# 2

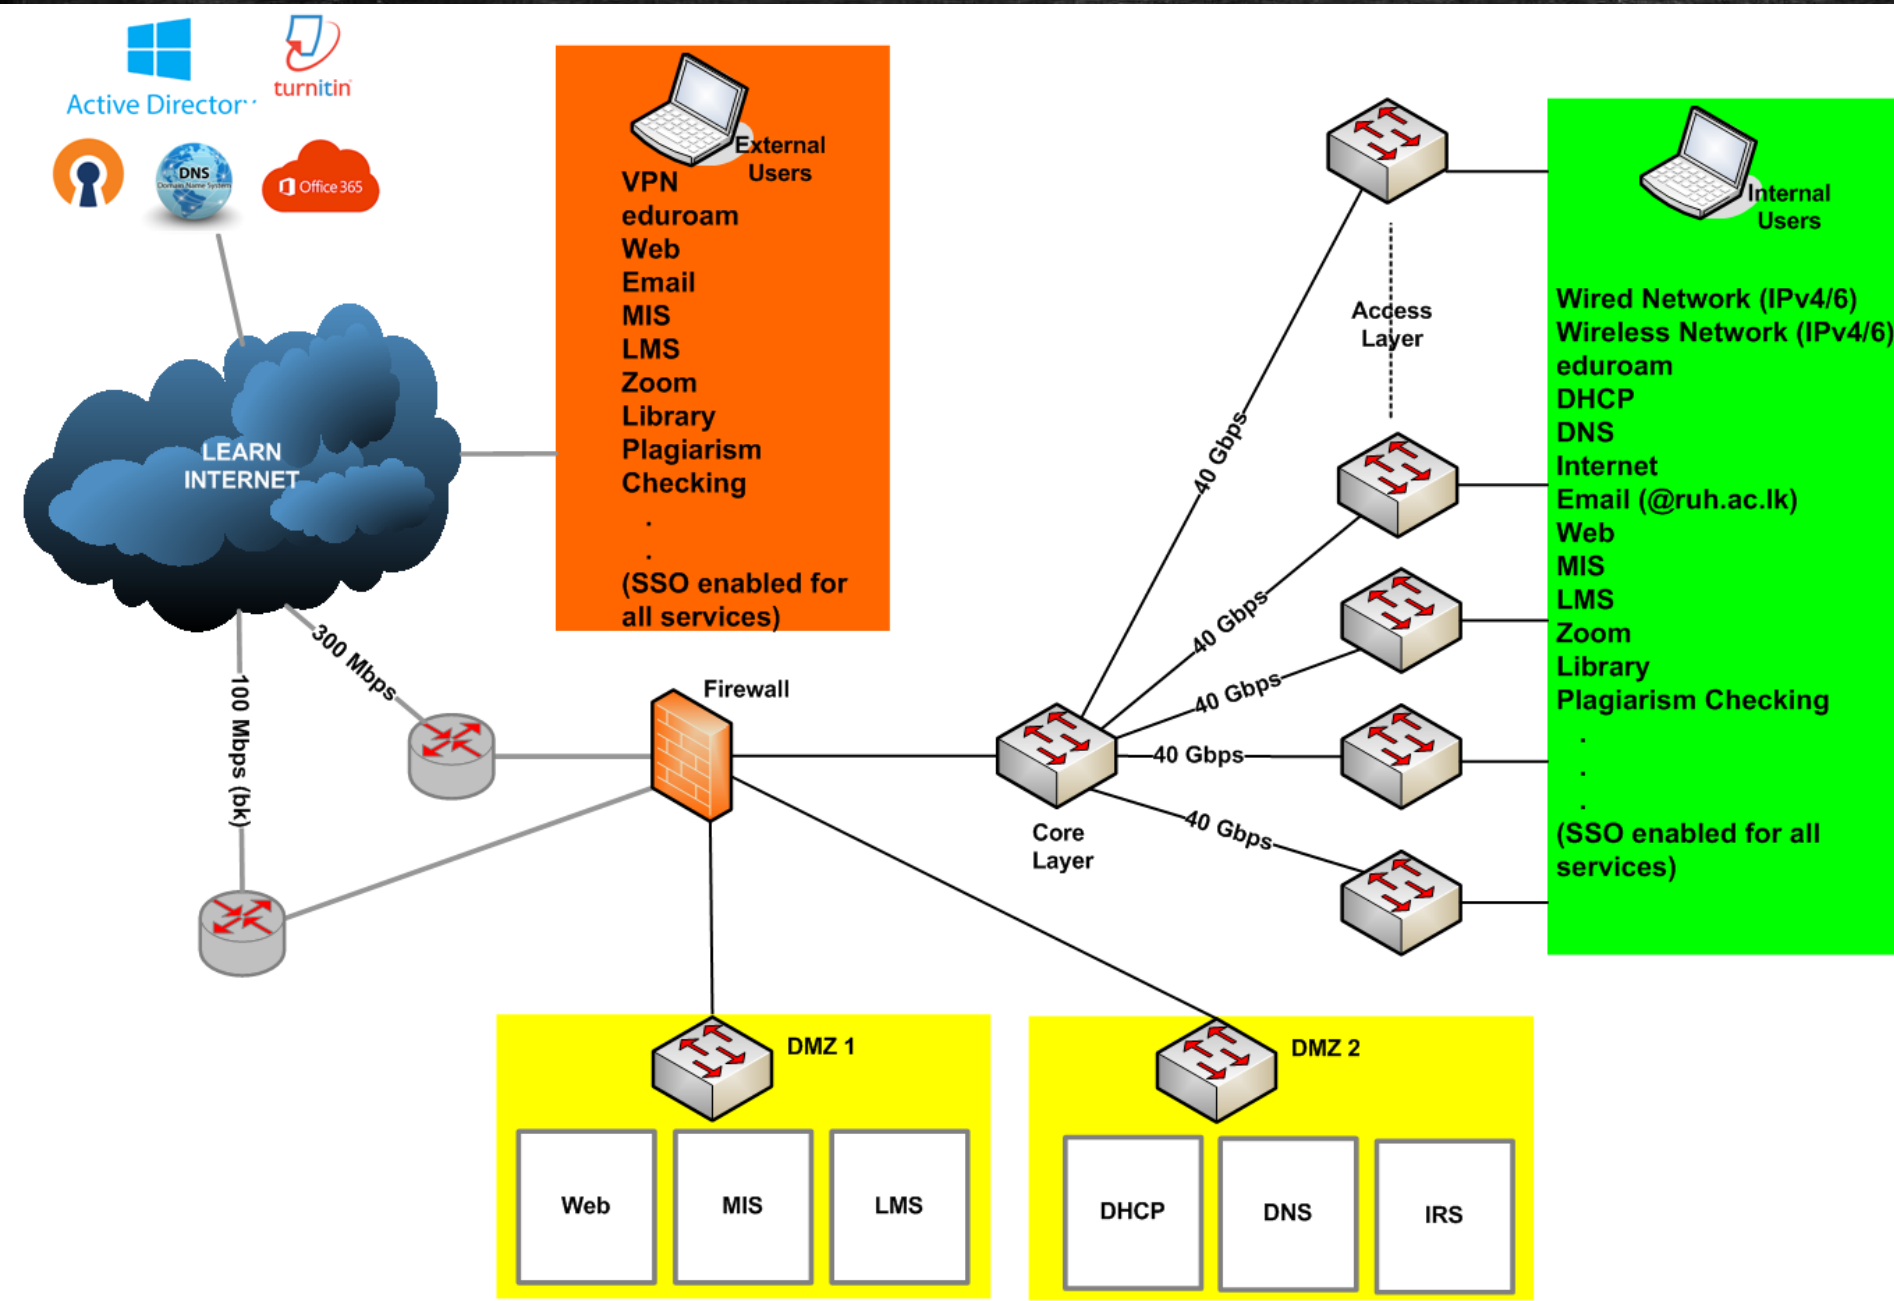

**1200 Users**

**300 Mbps**

**100 Mbps Backup**

# Faculty of Agriculture (Mapalana)

**Future Network & Services**

**2**

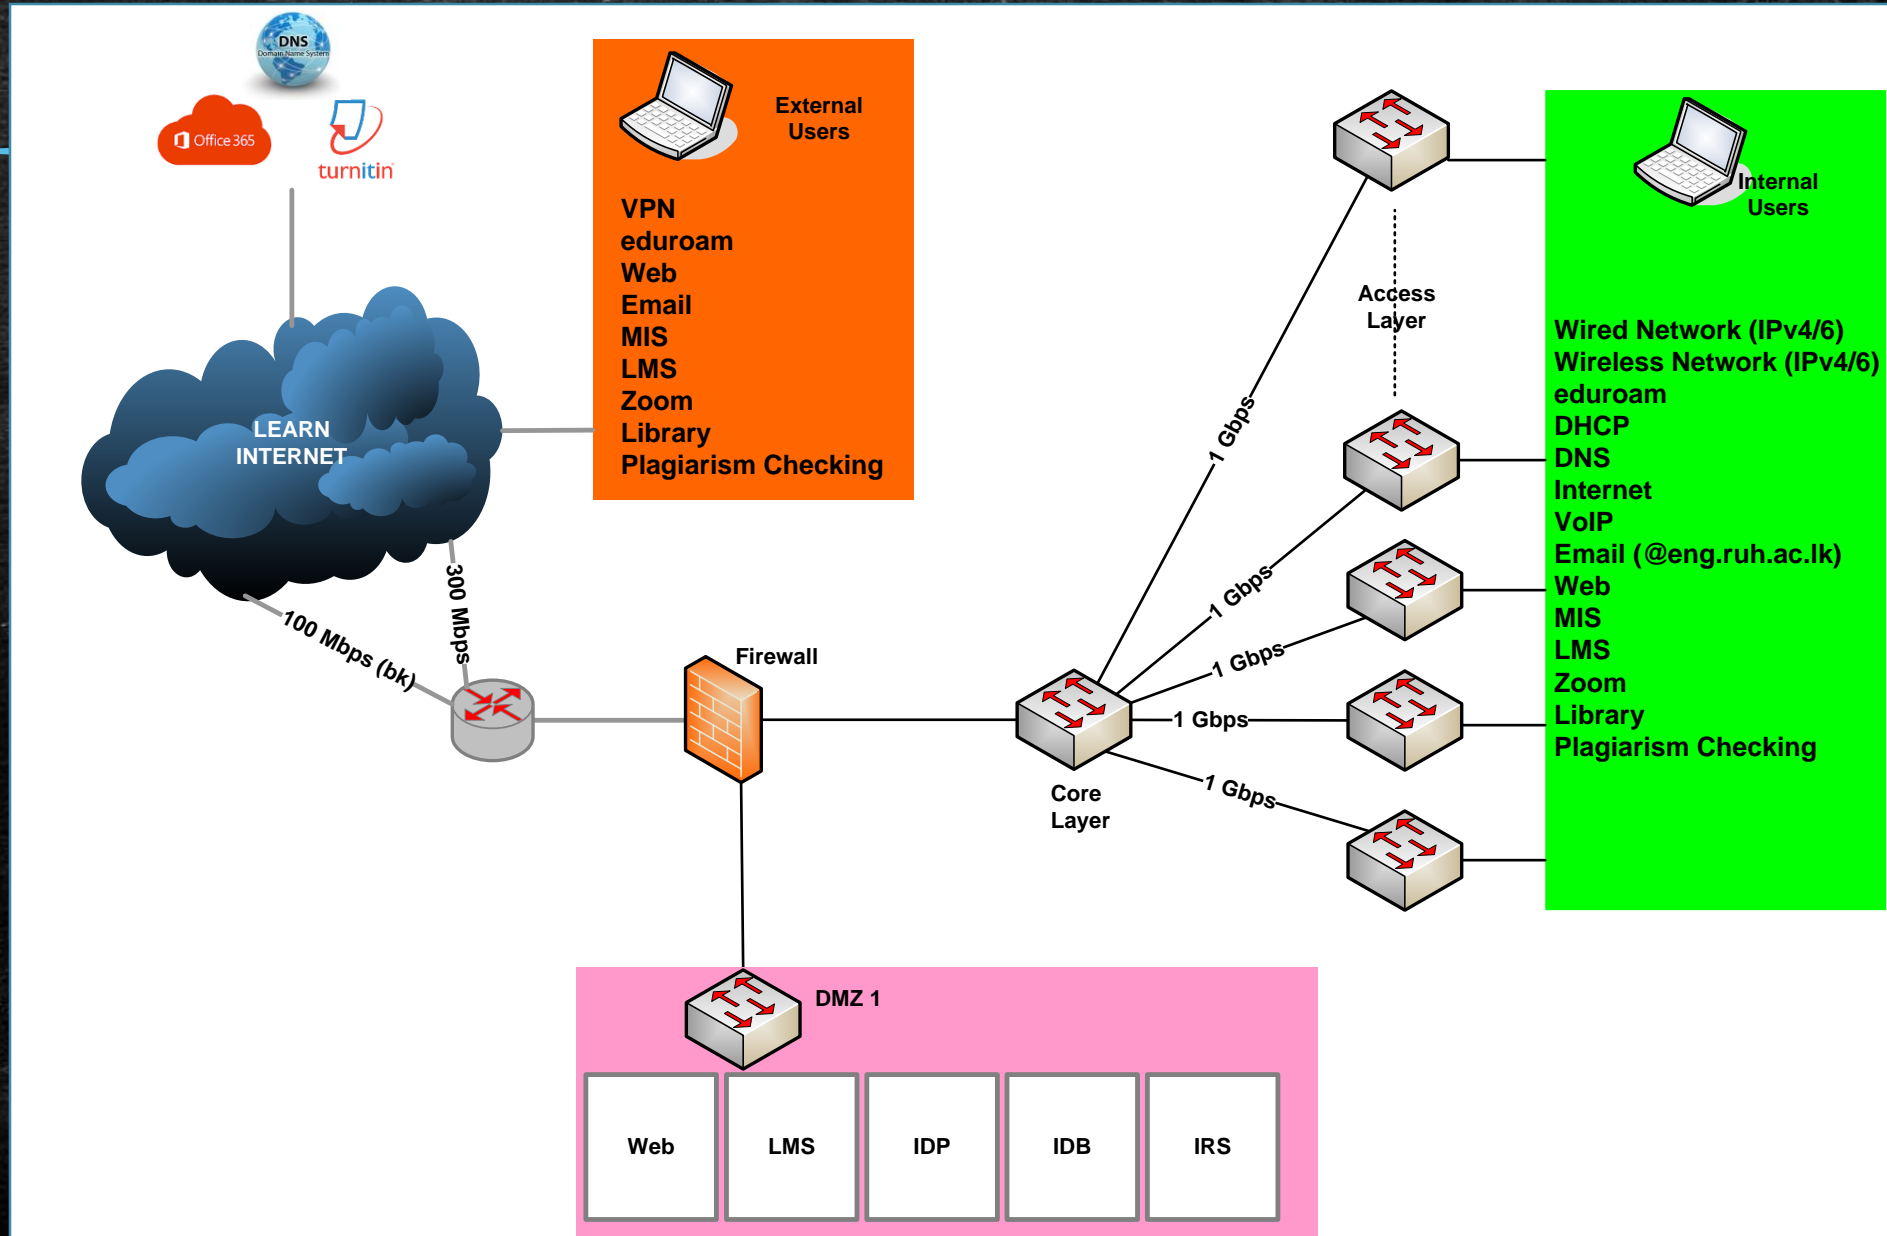

# Faculty of Engineering (Hapugala, Galle)

# 3

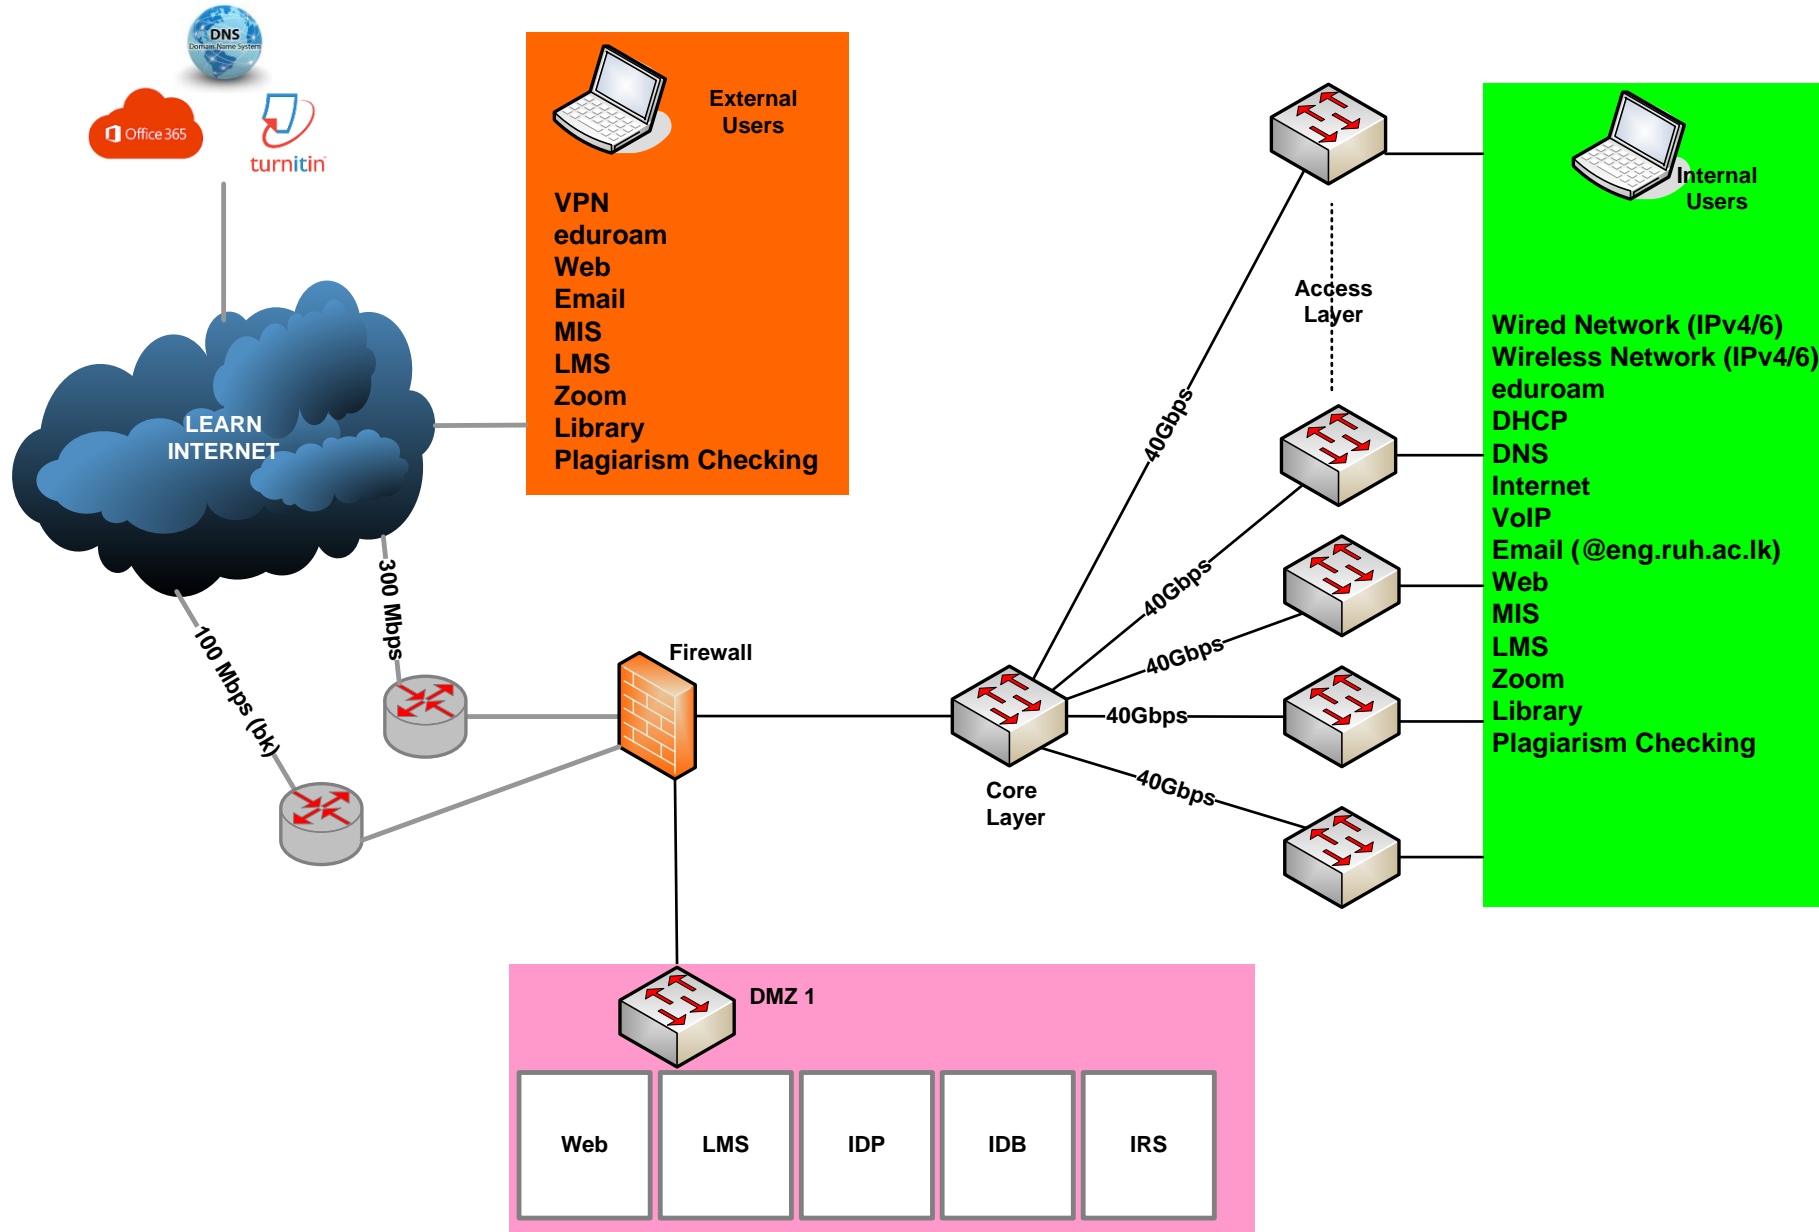

**2000 Users**

**300 Mbps**

**100 Mbps Backup**

# Faculty of Engineering (Hapugala, Galle)

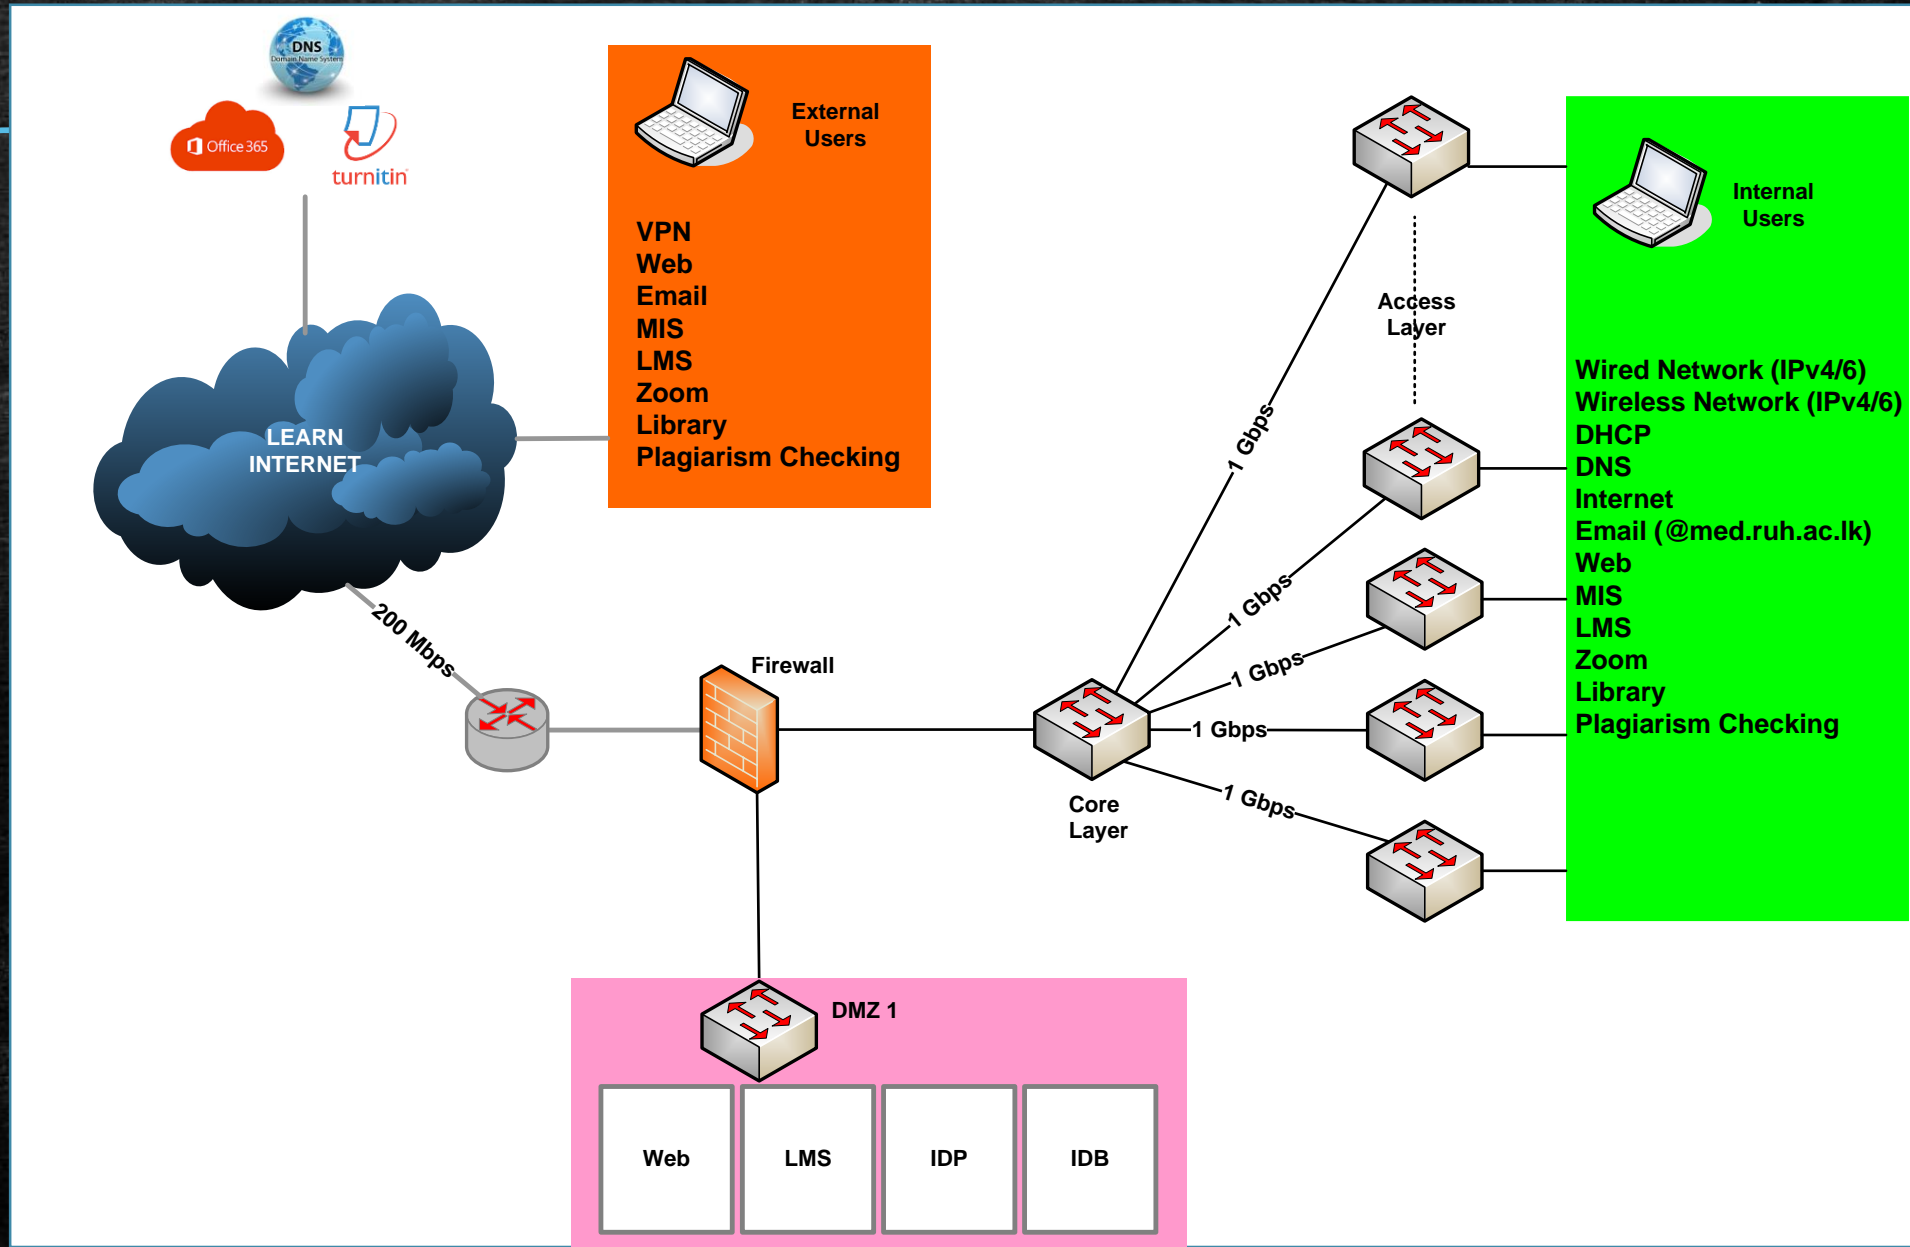

**Future Network & Services**

**3**

# Faculty of Medicine (Karapitiya, Galle)

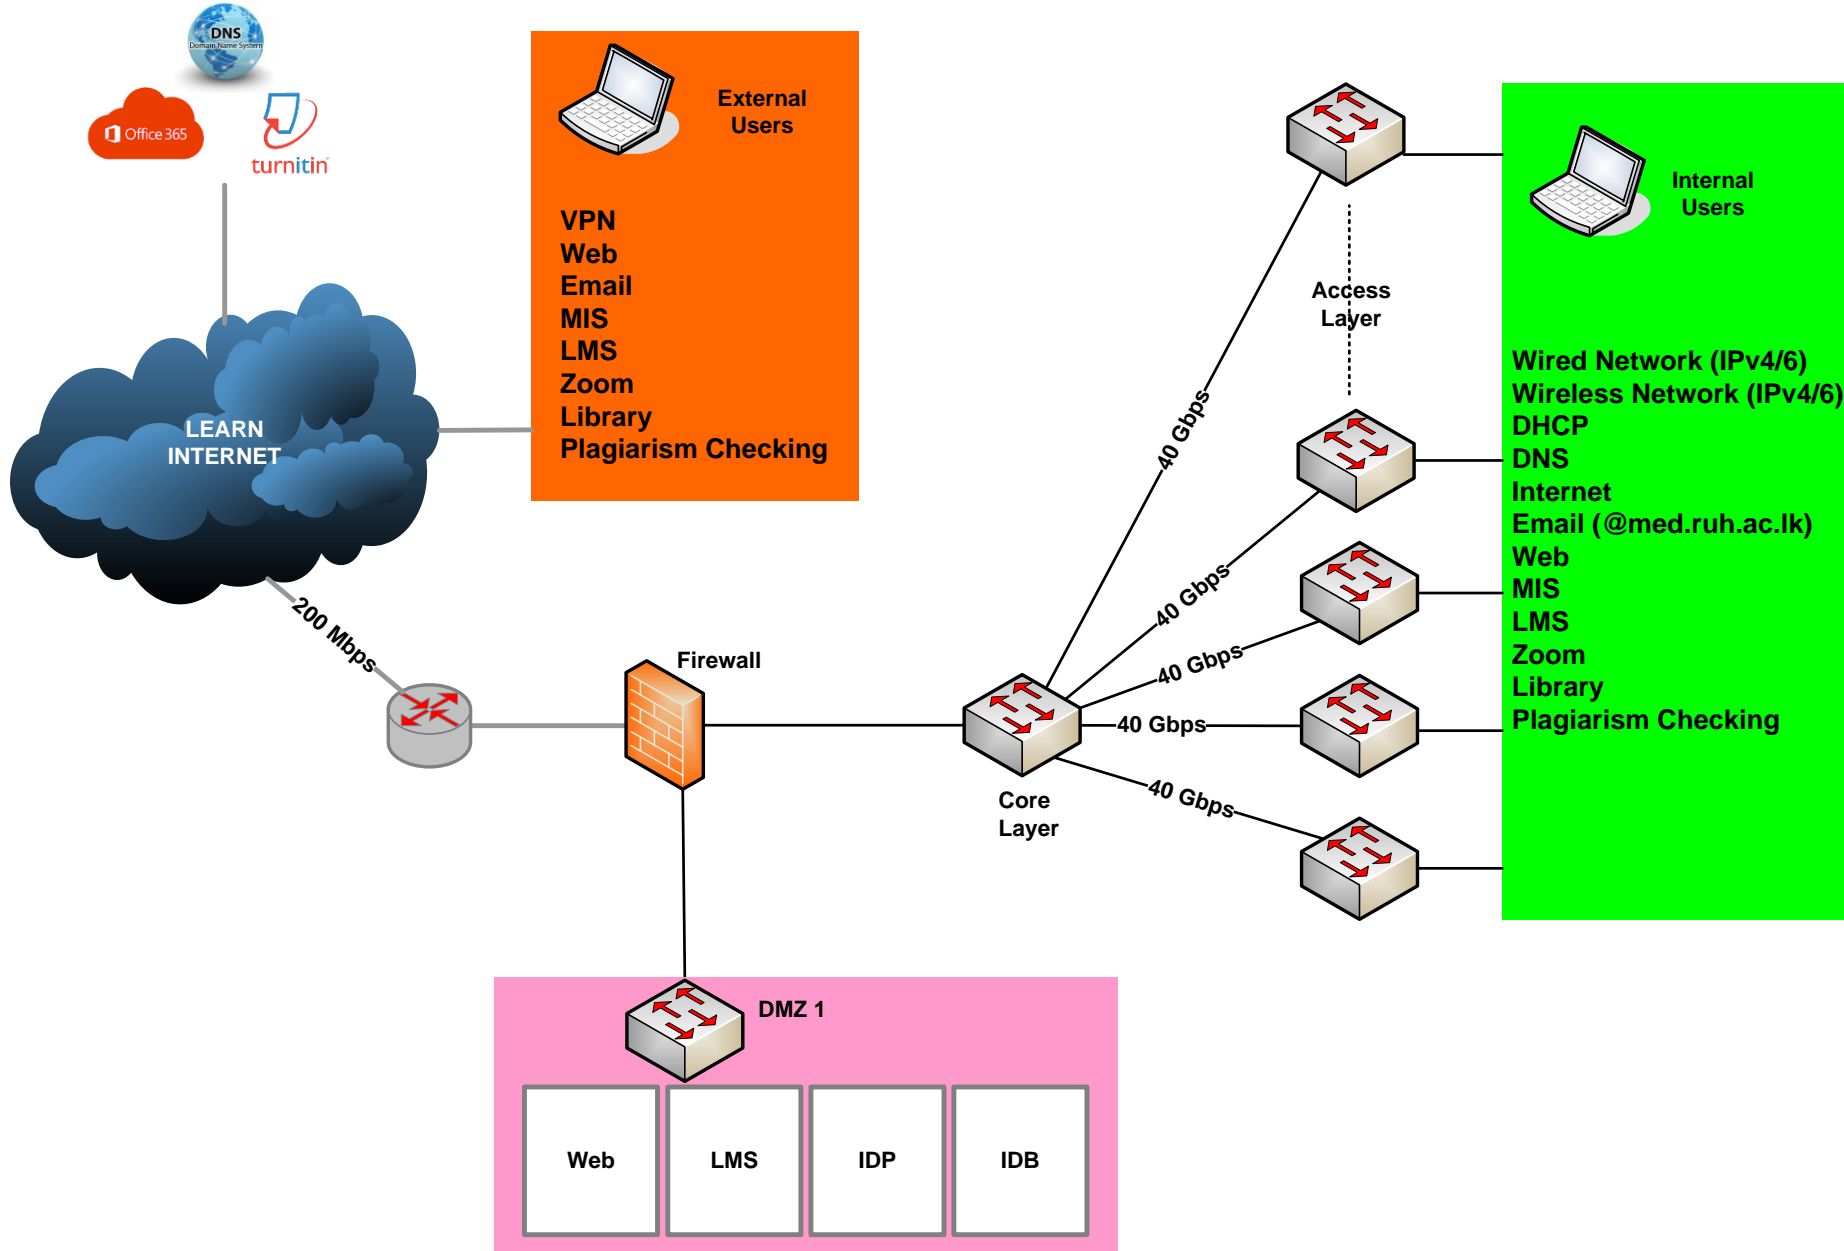

# 4

**1000 Users**  
**200 Mbps**

# Faculty of Medicine (Karapitiya, Galle)

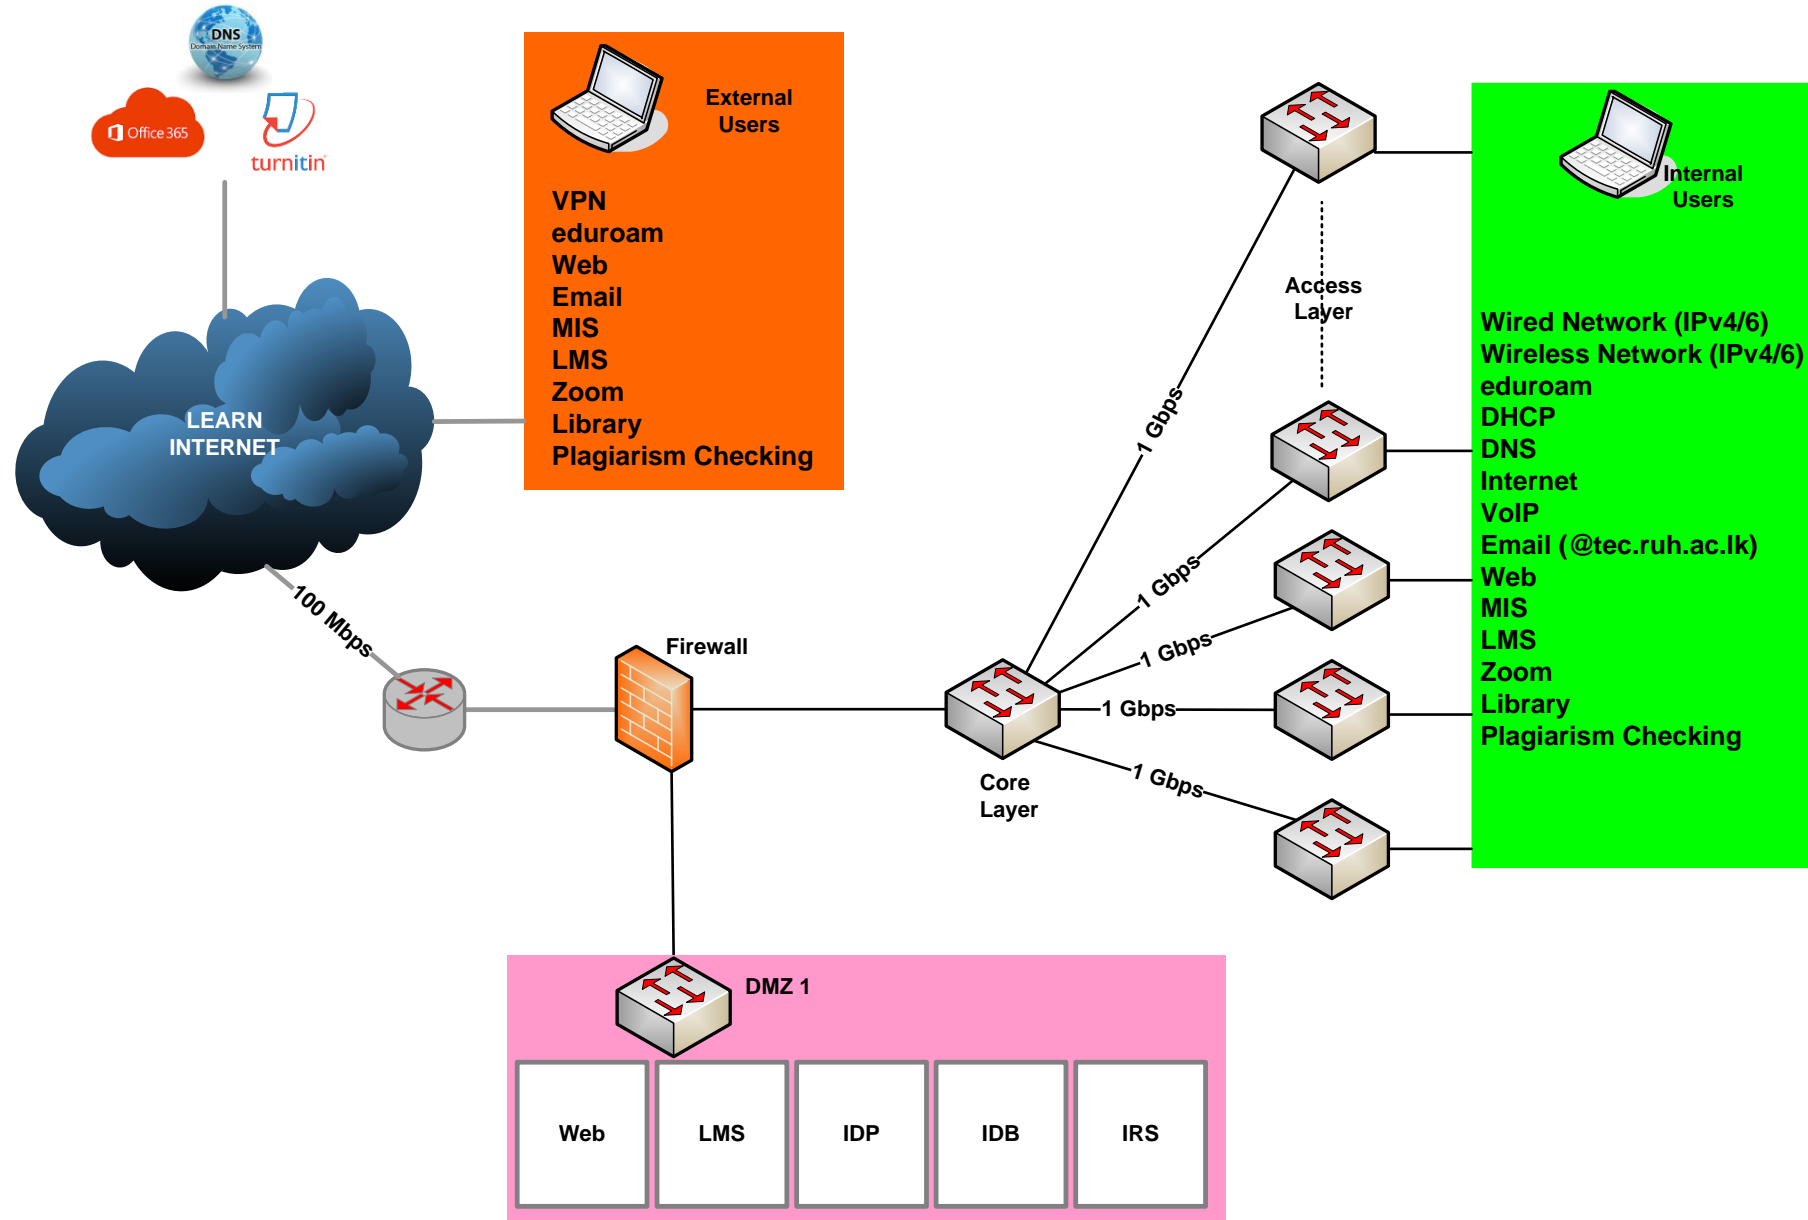

**Future Network & Services**

**4**

# Faculty of Technology (Kamburupitiya, Matara)

5

1200 Users  
100 Mbps

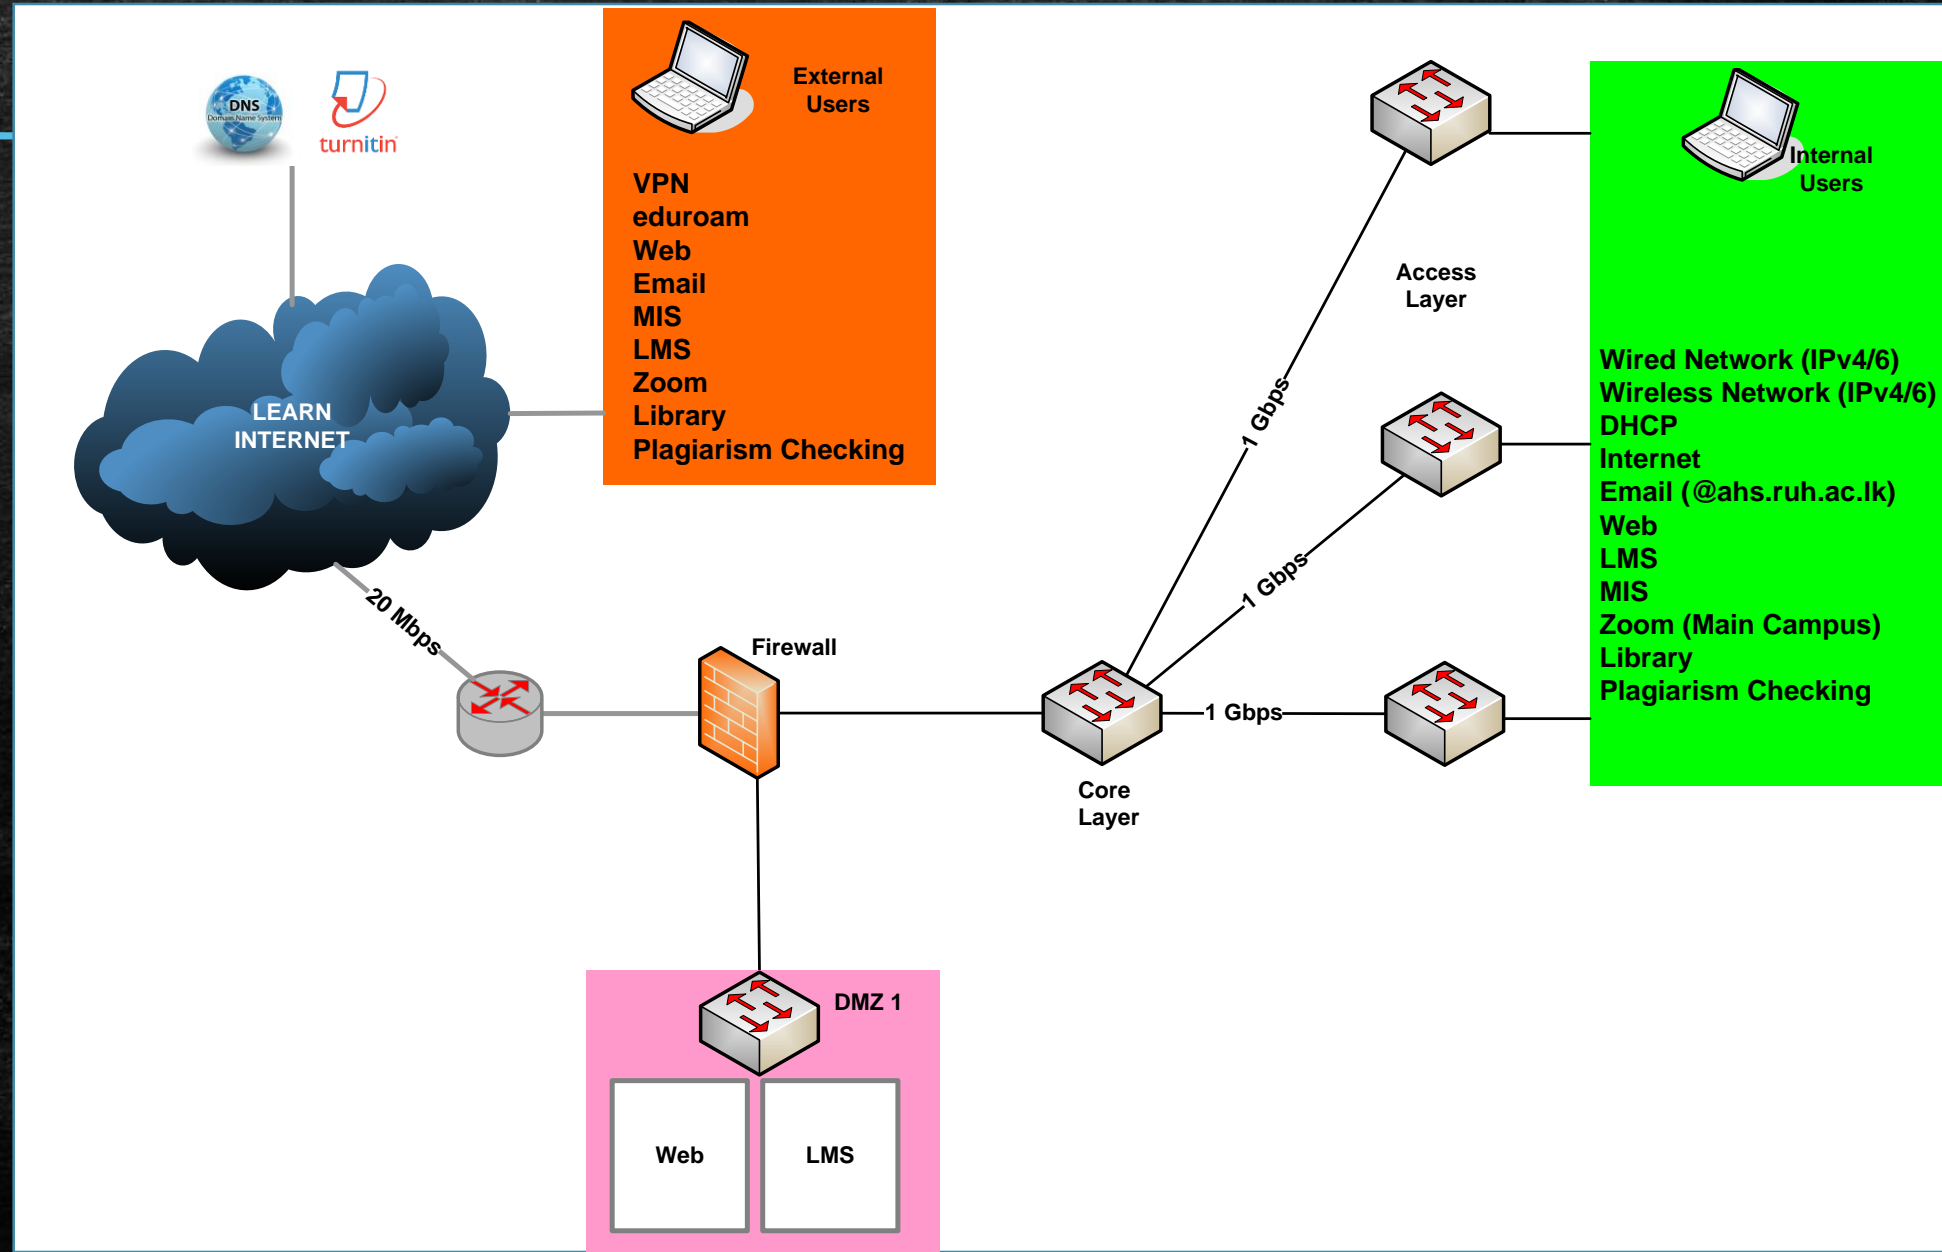

# Faculty of Allied Health Sciences (Karapitiya, Galle)

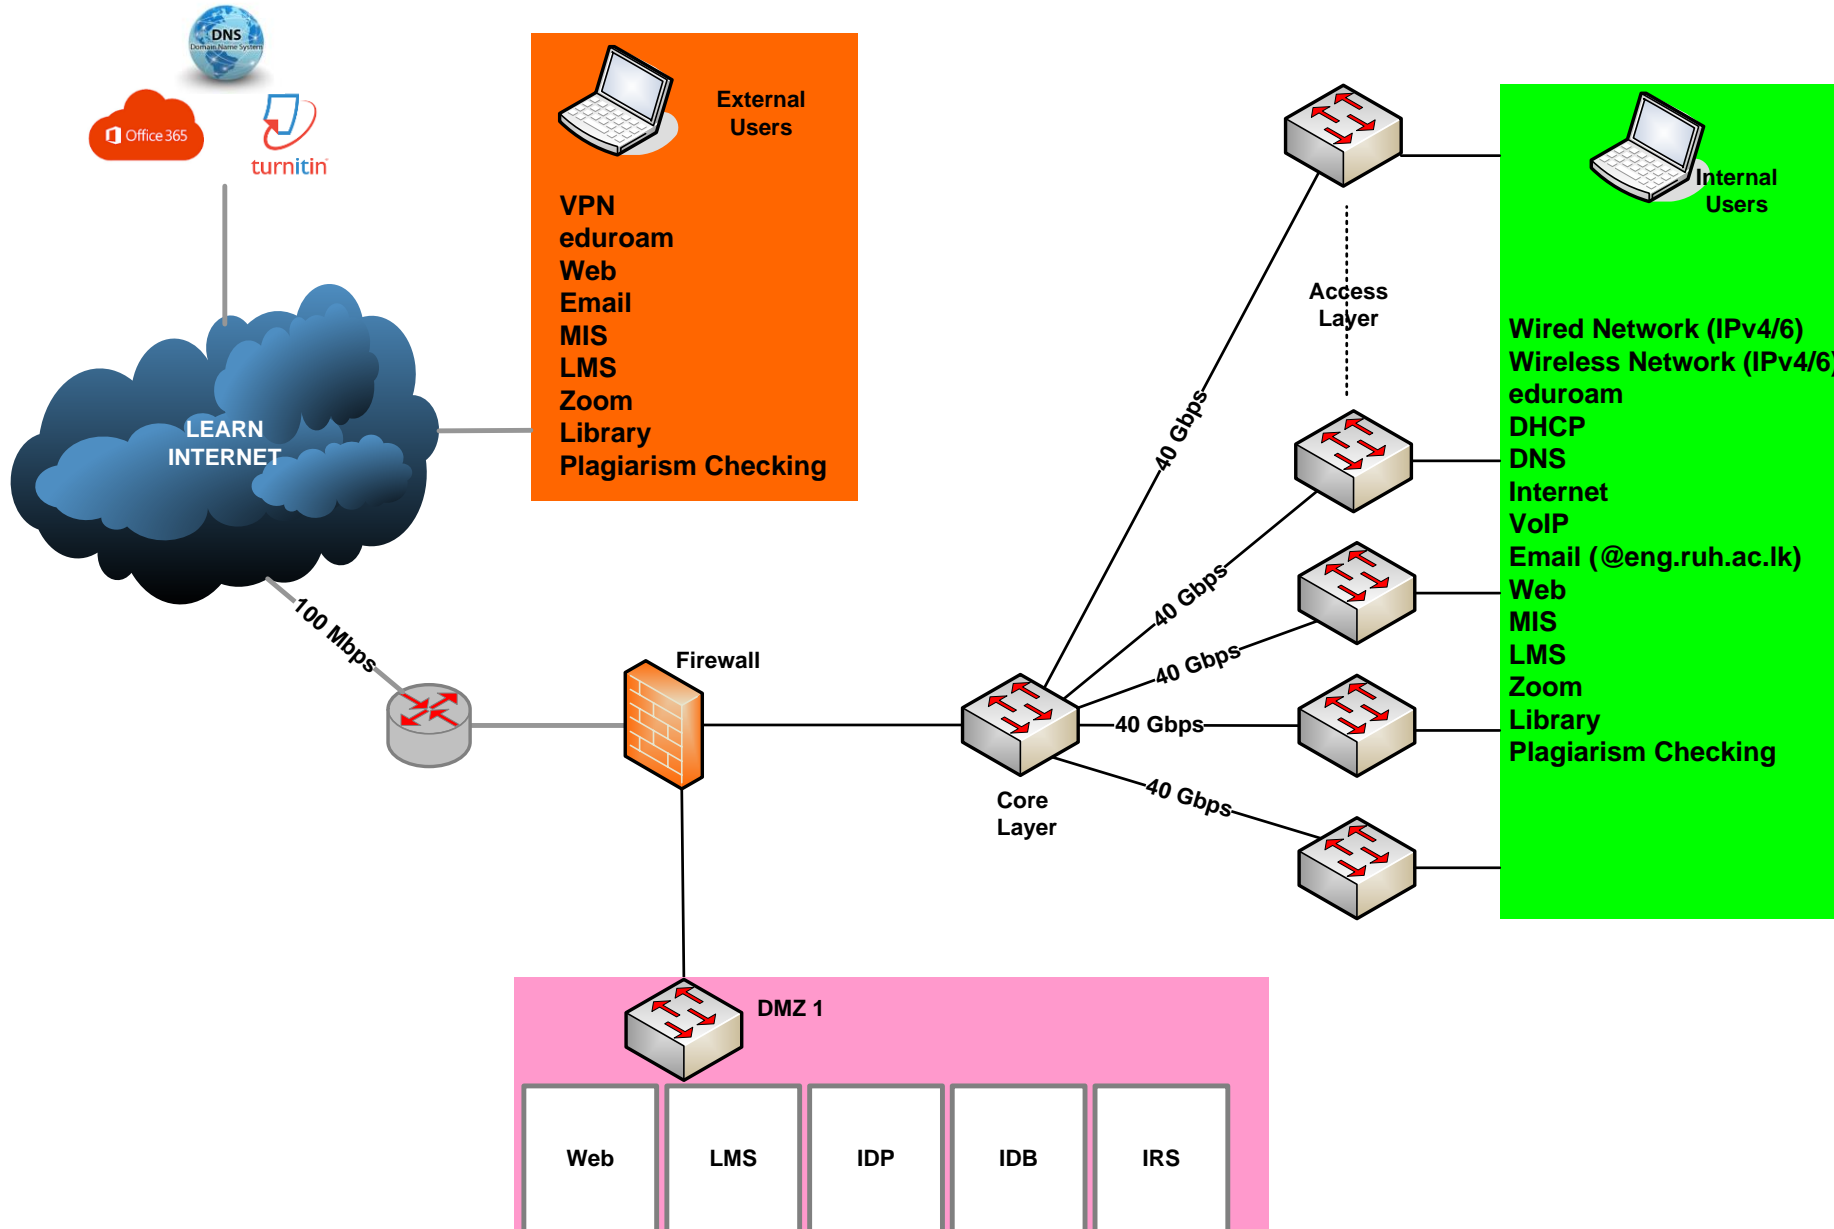

# 6

**200 Users**  
**20 Mbps**

- 02 Departments only
- Currently the faculty is located at several locations
- Planed to established entire network in the new bulding complex

# Faculty of Allied Health Sciences (Walahanduwa)

**Future Network & Services**

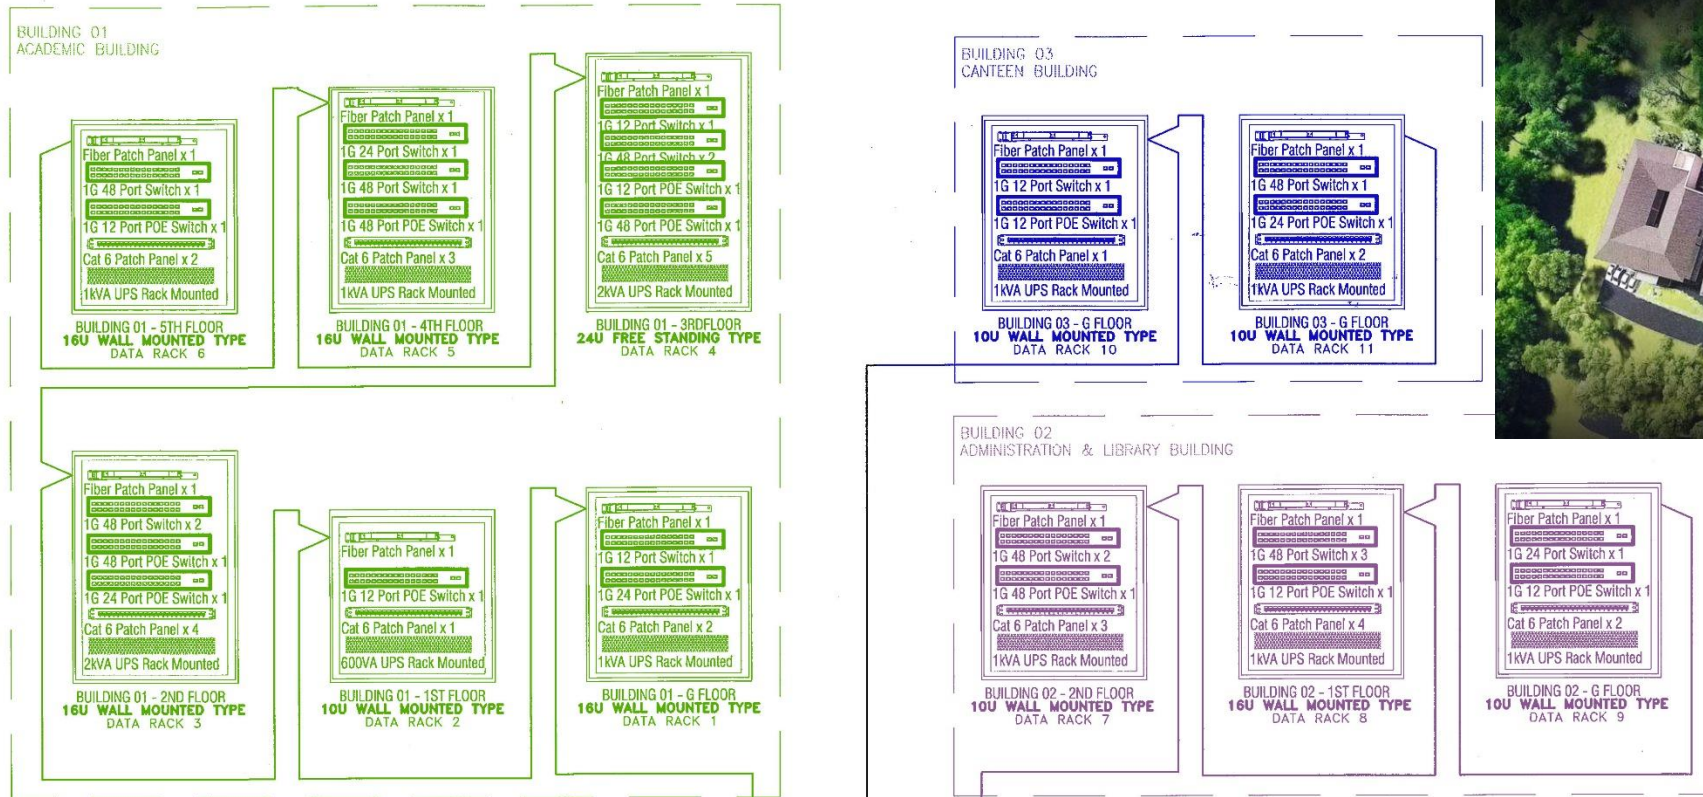

**6**

**To be Improved**

**1000 Users**

**100 Mbps**

# Faculty of Allied Health Sciences (Walahanduwa)

Cabinet approved new building complex  
Faculty of Allied Health Sciences  
University of Ruhuna

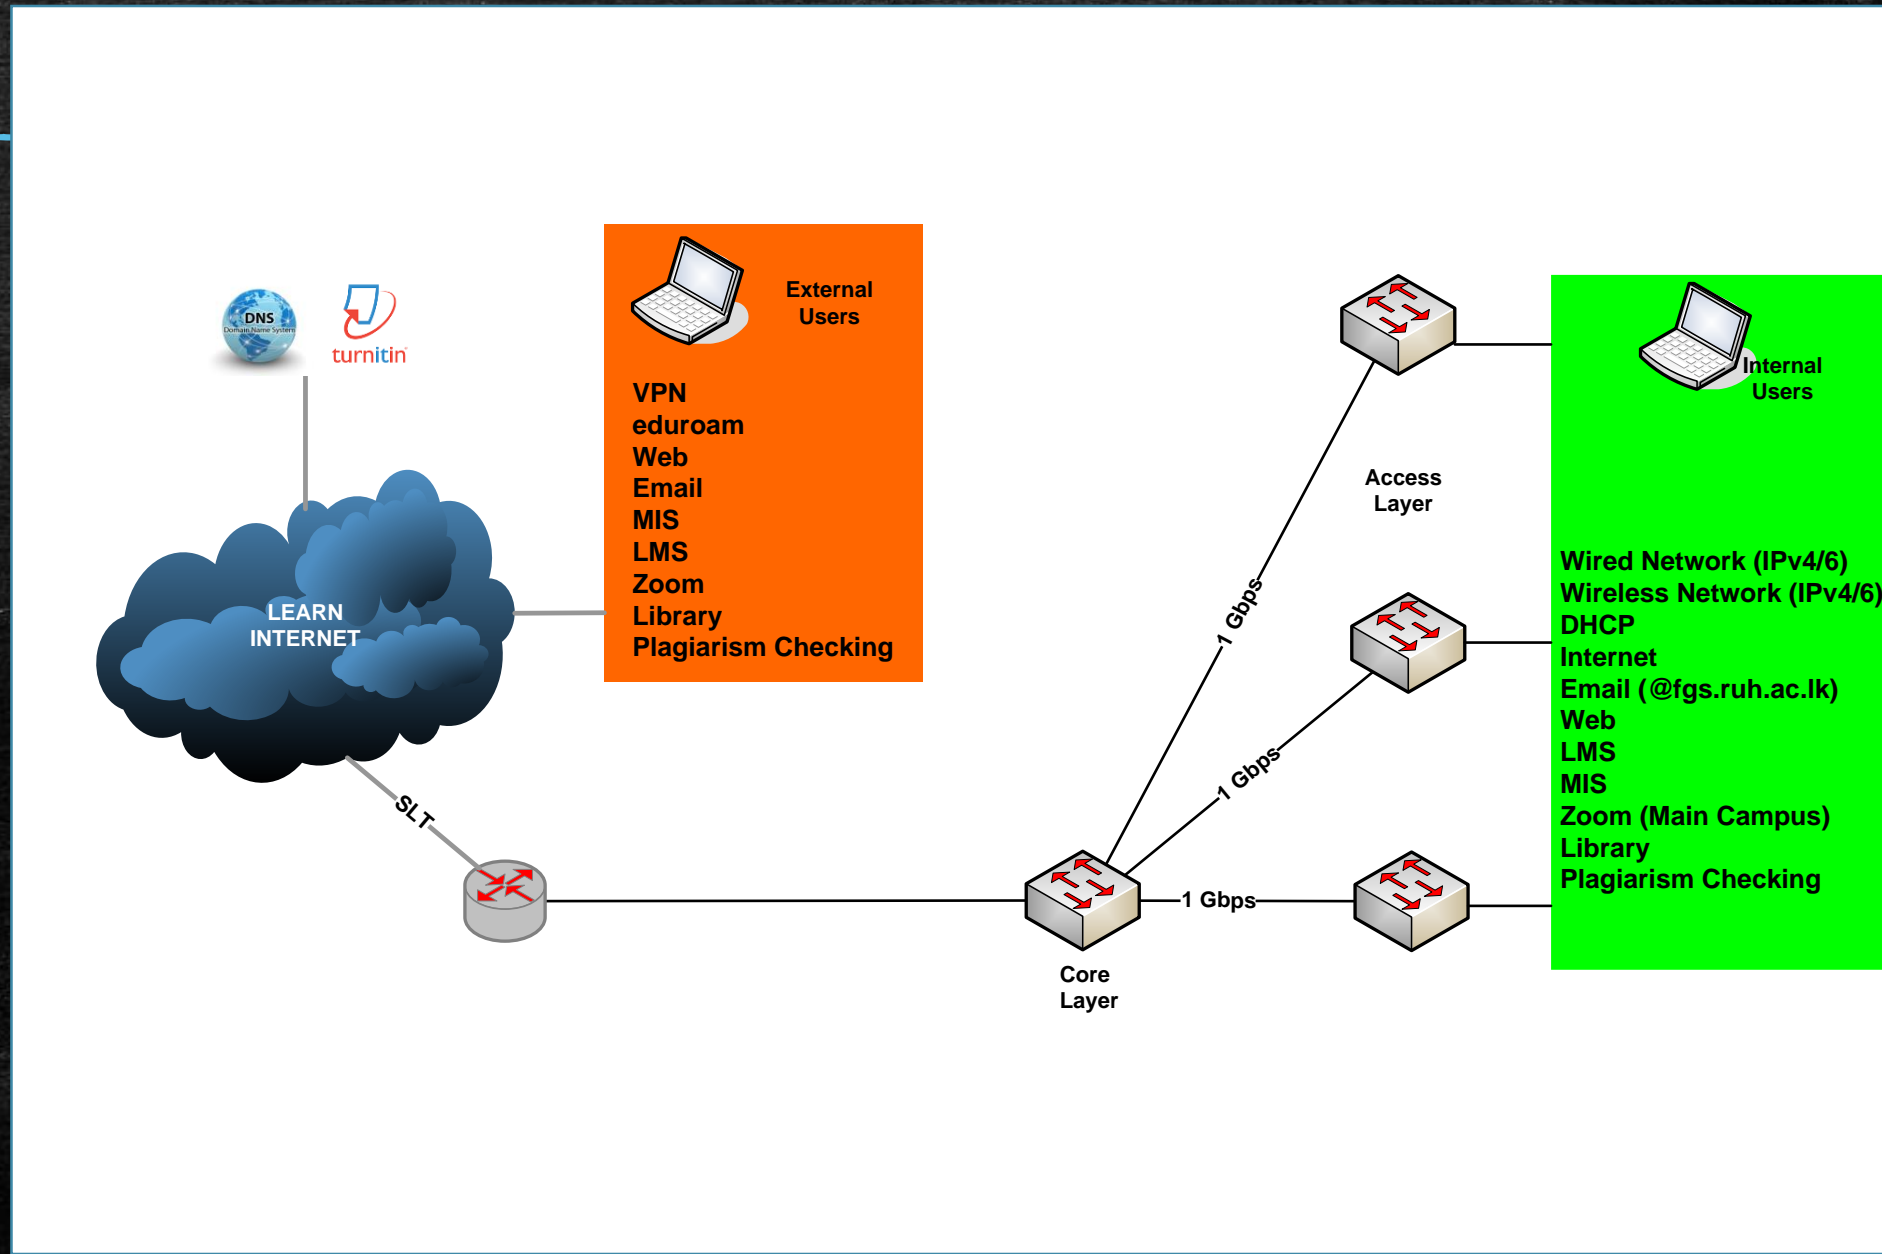

## Future Network & Services

# 6

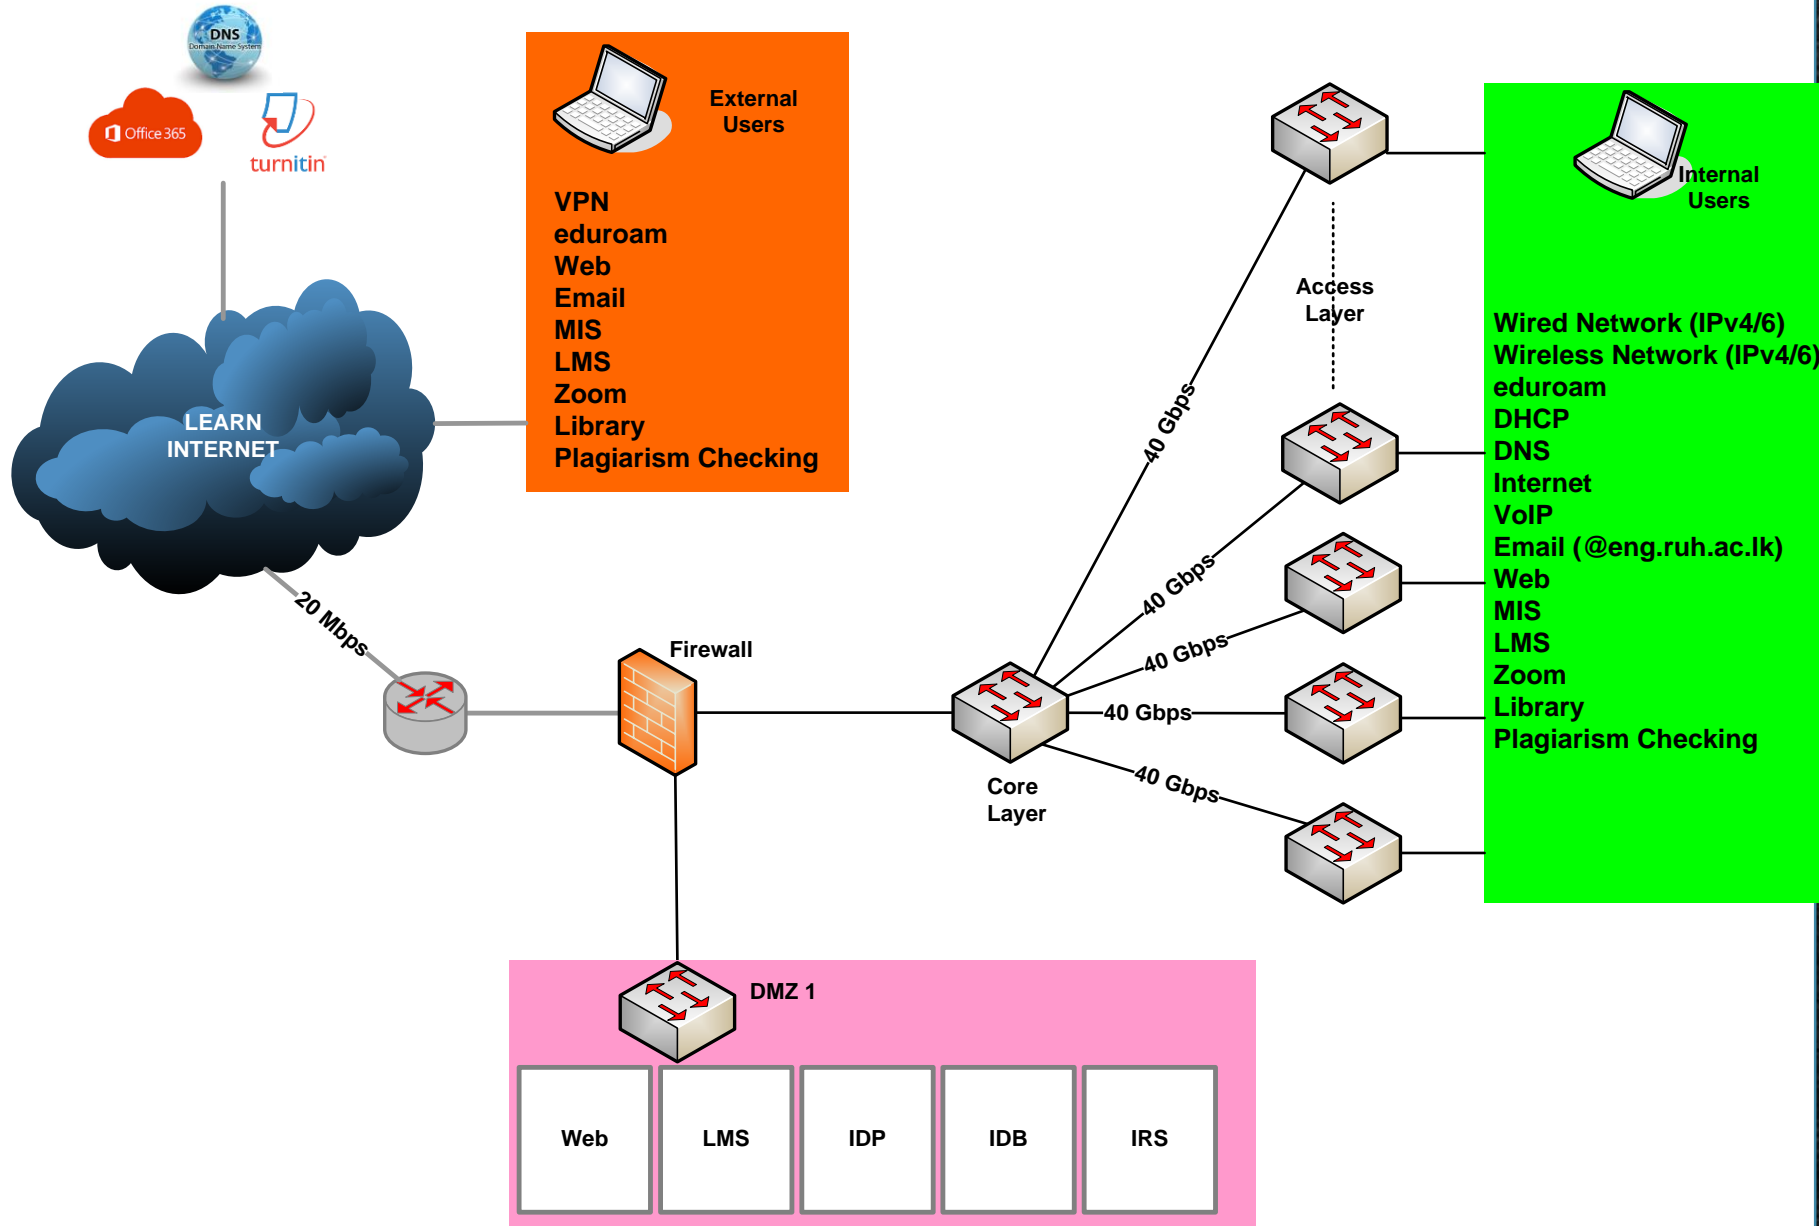

7

50 Users  
Not Connected  
to LEARN

# Faculty of Graduate Studies (Matara)

**Future Network & Services**

**6**

**New**

**50 Users**  
**20 Mbps**

# LEARN Connectivity Summary

| Connectivity                                  | Bandwidth Mbps | Bk. Bandwidth Mbps | No. of Users |
|---|----------------|--------------------|--------------|
| Main Campus (Wellamadama)                     | 500            | 100                | 6000         |
| Faculty of Agriculture (Mapalana)             | 300            | 100                | 1200         |
| Faculty of Technology (Kamburupitiya)         | 100            | -                  | 500          |
| Faculty of Medicine (Karapitiya)              | 200            | -                  | 1000         |
| Faculty of Engineering (Hapugala)             | 300            | 100                | 2000         |
| Faculty of Allied Health Sciences (Uluwitike) | 20             | -                  | 200          |
| Faculty of Graduate Studies (Matara)          | -              | -                  | 50           |

# Capacity Building for IT Staff of UoR

## List of Trainings

Campus Systems Linux Essentials

LKNOG6 Workshops and Conference

Workshop on Moodle Administration Essentials

Workshop on Identity Access Management Campus Essentials

Virtualization, Installation, and Administration of On-Prem Video Conferencing Platform

Conducting on-line tests with the Moodle learning management system

Computer Hardware and Electronics

Basic Electronics

Management of Aruba Network Devices

Management of Huawei Network Devices

Kaspersky Antivirus Management

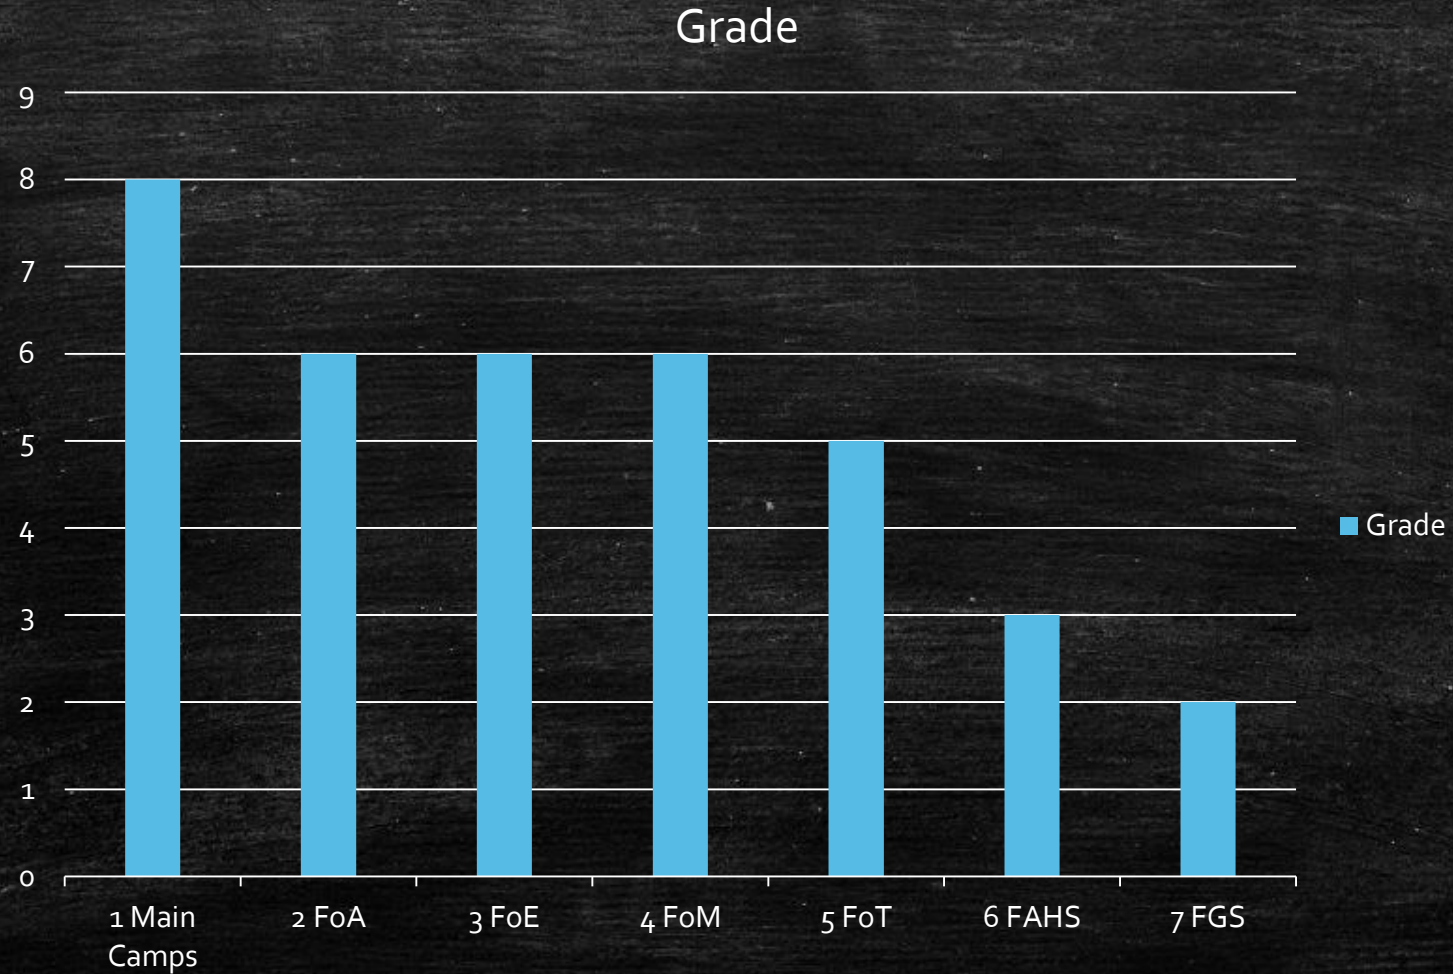

Training on new Hybrid PABX

Aruba/HPE Training Session

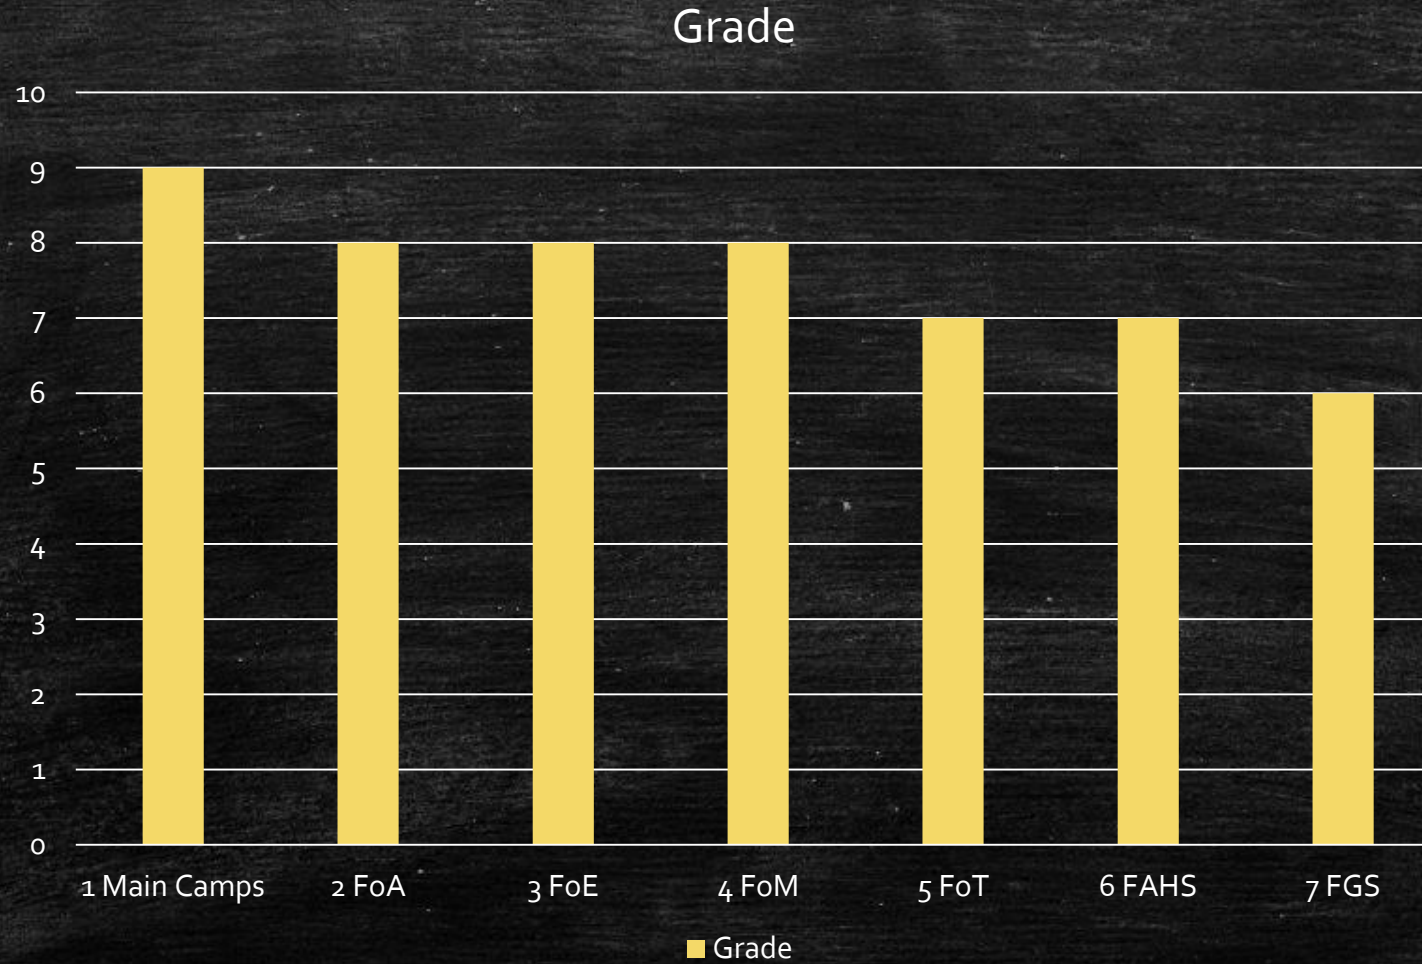

Google Workspace for Education

etc...

# Self Evaluation Statistics of Current Status

# Self Evaluation Statistics of Future Developments

# Way Forward

---

- Get UGC Recognition for RUCIT
- Improve HR Capacity of RUCIT
- Upgrade UoR Network and Services
- Establishment of New NOC at Main Campus (Wellamadama)
- Get LEARN Connectivity to the Faculty of Graduate Studies (Matara)
- Improve LEARN Connectivity of the Faculty of Allied Health Sciences (Galle)
- Complete IPv6 Deployment ( Partially done)
- Introduction of Complete SSO to Access All Network Services
- Complete Automation of Business Processes of UoR

# Challenges

---

- Decentralized nature of the University
- Unavailability of budget for new developments
- Limited /Insufficient budget for equipment maintenance
- Equipment maintenance with coastal environmental condition
- Finding human resources

Thank you

---
